

U. S. Tanks Smash Into Kumsong; City Blasted For Hour

SEOUL, Korea.—(P)—American tanks smashed into Red-held Kumsong today and blasted Communist targets there for one hour.

They returned to the main south without a casualty despite heavy Red anti-tank and artillery fire.

A pooled dispatch said two companies of M-46 Patton tanks rumbled into the outskirts of the Red's central front bastion.

Earlier Saturday Allied tanks probed to within a mile of the city and pounded it with high explosives.

Capture Imminent

About one mile to the south Allied infantrymen battled in wind and rain for the last major ridge-line below Kumsong. Some U. N. ground troops could look down into the town from high ground to the south. Kumsong is 30 miles north of the 38th parallel.

An Allied briefing officer said the tanks were "exploring" the area. They pushed around a "C" shaped bend in the river and opened fire from the entrance to a valley that leads directly northward into Kumsong.

Southwest of Kumsong other

Allied troops inched forward and captured a hill.

The Eighth army communique said advancing U. N. units were 2,500 yards—less than a mile and a half—from Kumsong.

The general belief around Eighth army headquarters was that U. N. troops could take Kumsong if they wanted to. Whether Gen. James A. Van Fleet would order the city's capture immediately remained to be seen.

Listening For Truce

Headquarters officers also had one ear cocked toward Panmunjom, where there were indications a compromise might get the stalled truce talks started again.

On the eastern front American tanks rumbled through the canyons east of Heartbreak Ridge testing enemy strength. One column drew mortar and artillery fire from Red positions along the hillsides.

Far north of Heartbreak, a U. N. battalion hurled back an enemy counterattack 50 miles above the 38th parallel. This was at the advance point of a corridor stretching north along the eastern seacoast under the protective guns of Allied naval forces.

Peak Of Metals Pinch Expected Early In 1952

DETROIT — (P)—The peak of the metals pinch will come early in 1952, although peak defense production won't be reached until 1953, according to Mobilization Director Charles E. Wilson.

This, he said here last night, is due to the lag or lead-time "between the day when we undertake to manufacture the complicated machinery of modern warfare and the day it is completed."

The defense chief spoke at the concluding session of the first world metallurgical congress. It was attended by an estimated 45,000 metal scientists including 400 brought from abroad through the economic co-operation administration.

Wilson praised the meeting. The mobilization of strength against Communist aggression requires pooling the metal resources and "mental fertility" of the "whole free world," he said.

Explaining "lead-time," Wilson said that aluminum production for aircraft now is four times the pre-Korea rate. But it will be fall of 1952 before aircraft deliveries are four times more than in mid-1950, he said.

A good part of this delay, the defense mobilizer said, "is due to the fact that we are building new types of aircraft and our program is a flexible one."

"We're willing to risk criticism for not meeting a given schedule," he said, "if, by pausing, we can get a 1,000 better weapons than 1,200 old ones."

Public Opinion Drifts To Right In England; May Defeat Laborites

LONDON — (P)—The reigning British Labor party, making it grim bid to win its third straight general election, is trying to convince Britons that a vote for the Conservatives is a vote for war.

Domestic issues — especially the rising cost of living — figure high in campaign issues for next Thursday's voting. But the Laborites pin high hopes on foreign policy arguments to reverse a small but significant rightward drift of public opinion which is threatening to throw them out of office.

The Labor party's argument is that the Conservatives have "19th century minds" and are unfit to deal with explosive upsurges of Asian and African Nationalism. They argue the Conservatives might plunge Britain into war in combatting these movements.

The Conservatives assert the Labor government's policy has been feeble and say that's partly the reason Britain's foreign relations are now so troubled.

The Conservatives also contend the Labor argument is an unjustified attempt to cash in on the voters' desire for peace.

Among the latest moves in the "war scare" campaign was a leaflet distributed by Michael Stewart, undersecretary of war, who is seeking reelection in a close-fought London middle class constituency.

The leaflet praised Prime Minister Attlee's "restrained" influence on foreign affairs and was illustrated with a picture of Attlee and President Truman shaking hands. Many Laborites argue that when Attlee visited Mr. Truman in Washington last December, he helped persuade the President not to get too tough with Communist China—and thus, they say, he helped to save world peace.

Defiant Egypt Keeps Armed Forces Away From British Guns

By FRED ZUSY
CAIRO, Egypt — (P)—Egypt maintained her defiance of Britain today with words and small deeds—but her armed forces carefully kept out of range of strong

British forces dug in along the strategic Suez Canal.

From Cyprus came word that the British garrison on the island was completely stripped to reinforce the 40,000 Tommies in Egypt with a full brigade of parachute troops. The last 2,000 troops on Cyprus left for Egypt today.

A British military spokesman in Cairo said 450 army men and 750 for the Royal Air Force are disembarking today at Port Said but that they are "mere replacements."

The spokesman said that after a night without incident, two native drivers of a Naafi (Army post exchange) truck were ambushed this morning. One man was wounded in the thigh. The shooting occurred about 20 miles west of Ismailia, a British base on the canal.

Cairo police officials said they will continue the 12-day-old "state of alert" for police for several more days. Special detachments of police are on extra duty at strategic points in the city to enforce the government's ban on demonstrations.

In Cairo, Egyptian officials delivered a formal protest note accusing Britain of "endangering peace in the Middle East" and blaming her for Wednesday's pre-dawn battle at the El Ferdan bridge over the canal. Two Egyptian soldiers were killed in the battle.

Stassen May Enter Nebraska Primary

PHILADELPHIA.—(P)—Harold E. Stassen, president of the University of Pennsylvania, says he would confer with two Nebraska supporters relative to entering his name in that state's Republican presidential preference primary.

Stassen, former governor of Minnesota, unsuccessfully sought the Republican nomination in 1944 and 1948.

Fred A. Seaton, Hastings, Neb., publisher, announced yesterday that petitions would be circulated immediately to "draft" Stassen as a candidate for the Nebraska vote.

Three For Starter

DETROIT.—(P)—Mr. and Mrs. Earl Howard got a quick start on having a big family. Their first children, born Thursday at Herdman 17th, are triplets, two boys and a girl. Howard, 42, is unemployed, is 19. His wife is 18.

Agreement Near To Resume Truce Dickers In Korea

By ROBERT B. TUCKMAN

MUNSAN, Korea.—(P)—Communist liaison officers today accepted a United Nations compromise of a quarter-mile-wide security path to the proposed new site for Korean armistice talks, and agreement seemed near for quick resumption of the long-stalled discussions.

Col. Andrew J. Kinney, senior allied liaison officer, said after today's session: "I rather expect the thing will get settled tomorrow one way or the other."

Liaison officers of both sides will resume their conferences tomorrow at 10 a. m., (8 p. m., Saturday EST). If agreement is reached then on security conditions, full scale talks could be resumed within a few days.

The Reds agreed to a United Nations proposal for a 400-meter corridor straddling the road from Panmunjom six miles west to Red headquarters at Kaesong and 16 miles southeast to the U. N. command advance camp at Munsan. The corridor would be free from attack by either side.

Only one point remained in dispute before arrangements are complete for resumption of full scale cease-fire negotiations—and the liaison officers appeared near agreement on that point: Shall the U. N. agree in writing to keep its warplanes from flying over the security zone around Kaesong?

"They (the Reds) are taking a very firm position on the over-flight question," Kinney said after Saturday's meeting.

An official release from U. N. command advance headquarters said "x x x" a solution to this problem was offered today when the United Nations command offered unilaterally to limit flights over Kaesong and the road to Panmunjom insofar as practical. (The U. N. command has already promised to avoid flights over Panmunjom itself.)

Heavily, 34, was charged yesterday with "concealing material facts" by failing to state in his bid that the arms would be surplus instead of new. He did not comment on the charge.

Heavily was a witness here last July in a congressional probe into purchasing operations at the Detroit Tank-Automotive Center. He told them of favors to Center employees.

Following the probe, the Center's commanding officer, Brig. Gen. David J. Crawford, was transferred. Two employees were reprimanded for accepting favors from contractors.

Hoffman, former Marshall Plan administrator and now head of the Ford Foundation, spoke here last night in the first of a series of lectures in memory of the late Senator Arthur H. Vandenberg.

He told his listeners that the Marshall Plan and the Korean war have "shattered the Kremlin time-table for world conquest," and the Soviet no longer can expect to stage "a successful military venture into Western Europe."

"We must continue to build military might, but we are approaching a position where we can talk to Stalin about universal disarmament and demand that he drop the Iron Curtain," Hoffman declared.

He said, however, that the United States still may lose the cold war "if Americans get tired of bearing the burden of world reconstruction."

The speaker said the foreign policy of "peace, justice and freedom" advocated by Vandenberg must be continued.

Referring to the Korean war, Hoffman said the Communists expected to take over the country in three weeks.

"If they had succeeded, opposition to Communism would have collapsed in the East," he asserted.

Then turning to the European situation, Hoffman said General Dwight Eisenhower has accomplished "little short of a miracle in bringing about unity for the defense of Western Europe."

Three Spending Bills Last Job For Lawmakers

Foreign Aid Biggest Money Measure

By JOE HALL and WILLIAM F. ARBOGAST

WASHINGTON.—(P)—Three big money bills were maneuvered into position today so that Congress could pass them quickly and go home.

The three, which include a \$7,328,903,000 foreign aid measure, are the only major items standing in the way of adjournment of the first session of the 82nd Congress. The lawmakers hope to call it quits some time this afternoon. They have been in session for nine months and 17 days.

Windup This Afternoon

Two of the appropriations bills were whipped into final compromise form at Senate-House conferences last night.

These are the foreign aid bill and a \$1,650,000,000 supplemental measure carrying funds for defense purposes, economic stabilization agencies and various government departments.

The third, a \$4,000,000,000 military construction bill, must be worked out in a conference.

Except for some miscellaneous odds and ends, all other "must" bills were out of the way, a \$5,691,000,000 tax increase bill having left Capitol Hill for the White House last night.

Anxious to get the year's business over with, House leaders called their branch into session earlier than usual. They hoped for

Surplus Arms Bought For \$500 Sold Back To U. S. For \$43,502

DETROIT.—(P)—The resale to the government for \$43,502 of tank support arms he bought as surplus for \$500 put a Detroit man under federal court indictment today. His alleged profit was 8,700 per cent.

The manufacturer, Kenneth C. Heavlin, 34, was charged yesterday with "concealing material facts" by failing to state in his bid that the arms would be surplus instead of new. He did not comment on the charge.

Heavlin was a witness here last July in a congressional probe into purchasing operations at the Detroit Tank-Automotive Center. He told them of favors to Center employees.

Following the probe, the Center's commanding officer, Brig. Gen. David J. Crawford, was transferred. Two employees were reprimanded for accepting favors from contractors.

Hoffman, former Marshall Plan administrator and now head of the Ford Foundation, spoke here last night in the first of a series of lectures in memory of the late Senator Arthur H. Vandenberg.

He told his listeners that the Marshall Plan and the Korean war have "shattered the Kremlin time-table for world conquest," and the Soviet no longer can expect to stage "a successful military venture into Western Europe."

"We must continue to build military might, but we are approaching a position where we can talk to Stalin about universal disarmament and demand that he drop the Iron Curtain," Hoffman declared.

He said, however, that the United States still may lose the cold war "if Americans get tired of bearing the burden of world reconstruction."

The speaker said the foreign policy of "peace, justice and freedom" advocated by Vandenberg must be continued.

Referring to the Korean war, Hoffman said the Communists expected to take over the country in three weeks.

"If they had succeeded, opposition to Communism would have collapsed in the East," he asserted.

Then turning to the European situation, Hoffman said General Dwight Eisenhower has accomplished "little short of a miracle in bringing about unity for the defense of Western Europe."

Resolution Signed To End State Of War With Germany

WASHINGTON.—(P)—The state of war with Germany is ended.

A congressional resolution ending it was signed by President Truman yesterday. This means that Germans are no longer enemy aliens in the eyes of this country.

The resolution makes it easier for Germans to do business and travel in the United States, it permits Germans to sue in U. S. courts and it opens the way for possible establishment of a German embassy in Washington.

Defense Order Halts Color TV

By FRANK O'BRIEN

WASHINGTON.—(P)—You can forget all about the big color television controversy—there is not going to be any color TV for the duration of the emergency.

A defense order calling for an immediate halt in color TV production was disclosed yesterday.

At present, the Columbia Broadcasting System (CBS) holds the only license for making color TV. The Federal Communications Commission (FCC) gave the CBS system the nod just a year ago. The supreme court upheld the FCC last spring and in June CBS began color telecasts from New York.

Mobilization Director Charles E. Wilson revealed yesterday he had written to CBS President Frank Stanton, asking him to suspend production immediately. In New York, Stanton said he promised compliance. CBS said its last color telecast for the duration would be today's Maryland-North Carolina football game.

Wilson told newsmen he acted to conserve materials and release "highly skilled electronics engineers for important military projects." Wilson said defense production, now climbing toward a peak, demands suspension of mass production of any new products "not absolutely essential and which would require the use of critical materials."

Home In 1937 Auto Catches Fire; Denver Man, 71, Loses \$2,000

DENVER.—(P)—Fire swept the automobile-home of Alexander Kreutzer yesterday. The 71-year-old man was burned severely and lost \$2,000 of \$7,000 life savings.

Kreutzer, who has a mailing address at the home of a son, lived most of the time in his 1937 automobile. It was equipped with a small gasoline stove for heating and cooking.

Police said the fire apparently started from a cigar which slipped from his fingers when he went to sleep. Flames awakened him and he dropped a wallet containing the \$2,000 in fleeing from the car. The wallet burned.

After the flames were extinguished, a cigar box containing \$5,000 was removed from beneath the front seat of the car.

Uncle Gives His Life To Save Nephew 7, But Boy's Burns Are Fatal

HOLLY, Mich.—(P)—A seven-year-old, whose ailing uncle carried him from a burning house and then died, succumbed himself to burns today.

The sacrifice of Jack Burk, 25, failed to save the life of Charles Oldaugh, who died in Hurley hospital, Flint.

Burk was discharged from the army Wednesday because of a heart ailment. But when the Oldaugh home caught fire here Thursday, he helped his sister carry out other children, and then went back in for Charles. He collapsed and died after carrying Charles from the flames.

Cleveland Chamber Endorses Waterway

CLEVELAND.—(P)—Cleveland Chamber of Commerce directors —after a long neutral stand—have endorsed the proposed St. Lawrence River seaway project.

The chamber made its endorsement with the provisions that tolls be charged to make it self-sustaining, and self-liquidating and that the U. S. share of the hydroelectric power developed by the project be distributed over privately owned facilities.

Income Levies Will Get Sharp Increase Nov. 1

White House Gives Final Okay

By FRANCIS J. KELLY
WASHINGTON.—(P)—A \$5,691,000,000 tax increase awaits President Truman's signature today after a perilous journey through the House.

A 185 to 160 roll vote in that chamber yesterday clinched passage of the big revenue measure. The Senate had approved it Thursday by a voice vote. Yesterday's victory was a sweet one for House administration leaders, stung four days before by rejection of an earlier compromise version of the bill.

Excise Rates Up

All hands on Capitol Hill took it for granted that Mr. Truman would approve the increase promptly.

It calls for a sharp boost in individual income taxes beginning Nov. 1, and—provided it is signed by tomorrow—for higher rates on dozens of manufactured products, including whisky, cigarettes, gasoline and automobiles.

Corporation taxes also are due to go up, and retroactively.

Over a full year's operation, the bill is expected to bring in \$2,280,000,000 additional revenue from individuals, \$2,207,000,000 more from corporations, and \$1,204,000,000 extra in excise (Sales) taxes.

Load Grows
The total increase is calculated at \$2,764,000,000 for the current fiscal year, now nearly one-third gone. Added on to revenue from existing laws, the increase is estimated to bring the government's

(Continued On Page 12)

New York Dock Strike Spreads

NEW YORK.—(P)—Federal authorities prepared today to shoulder the burden of solving New York's paralyzing wildcat dock strike as rebel stevedores moved to spread their walkout.

The five-day strike had hit 90 piers and 55 of 149 ships in Manhattan and Brooklyn by last night. Some defense shipping for Korea and other military outposts still was curtailed.

Incoming vessels were going to piers at Staten Island and New Jersey, but the Longshoremen called a mass meeting today reportedly to extend their movement.

Leaders of the strikers said they would tie up the whole vast New York-New Jersey port by Monday morning in their efforts to reopen contract negotiations with eastern shipping concerns.

At the request of city officials, the Federal Mediation Service stepped into the dispute last night.

In Washington, Cyrus S. Ching, chief of the mediation service, ordered the New York regional office to assign a panel of conciliators to the dispute.

Federal officials here are expected to act today.

Escanaba Songsters Present Their 4th Barber Shop Show

When Sam Ham steps out on the stage tonight to direct the Bay de Noc chorus in the opening number of their 1951 barber shop song show, it will be his fourth appearance behind the footlights as conductor of the local songsters.

The Escanaba SPEBSQSA chapter is sponsoring their fourth annual "Harvest of Harmony" show tonight at the Oliver Memorial auditorium, and their Bay de Noc chorus has been under Ham's tutelage ever since the first concert was presented back in 1948. Originally called the Escanaba chorus, the group this year adopted the Bay de Noc title in recognition of regular members residing at Gladstone and Ensign.

Opening the parade of all-star aggregations on the junior high school stage tonight at 8:15, the local chorus will sing a group of four numbers, and then will turn the program over to the quartets. Three quartets will perform in the first half of the program: The Escanaba Four-Tissimos; the Madison, Wis., For-Mors; and the Sing-Copates of Appleton, Wis. After an interlude of accordion music by Miss Janet Dixon of Gulliver the Bay de Noc chorus will sing four more of their new numbers, and then quartets will take over again. Included in the second half will be the popular Interludes of Midland, Mich., making a return appearance at Escanaba; and the inimitable Gay Nineties of Montevideo, Minn., masters of dead-pan comedy. The finale will be a selection by the entire assemblage of quartets and chorus.

Del Bradford of Appleton, Wis., first vice president of the Land O'Lakes district SPEBSQSA, will be the master of ceremonies tonight. He is in charge of chapter activities in the district and was a member of the former Four Keynotes quartet of Appleton, who sang on the 1948 show at Escanaba.

Attractive 28-page souvenir programs with pictures of all participants will be distributed to the audience at the auditorium tonight. The stage will be equipped with a new shell, owned by the district, and used here for the first time.

The traditional "after-glow" get-together for barber shoppers and guests will be held at the Elks club, second floor, after the show. Sunday morning local and visiting barber shoppers will have a farewell breakfast at the Ludington hotel, convention headquarters.

Proceeds of the show tonight will go to local charities by way of the Community Chest Red Feather fund.

Report Geese Flying South

Many Are Sighted Over Peninsula

Many geese have been flying south over the Upper Peninsula during the last three or four days, according to Max Wakeman, regional supervisor, game division, Department of Conservation, Marquette.

Kill has been light as the geese are in the old pattern of lighting on their favorite lake or pond and not setting down as they did two years ago when they set on almost every clearing or marsh that happened to be handy.

The flight ducks so far have not been too numerous but there has been fair hunting of the local ducks, Wakeman added.

Grouse hunting will end on the twentieth of October, along with the woodcock. Shooting on ruffed grouse has been very good, sharp-tail good in the areas where sharp-tail are found, with woodcock hunting poor to fair.

Air Force Seeks Civilian Workers

Whitney R. Dixon, manager of the Escanaba office of the Michigan Employment Security Commission, reported today that a representative of the Air Force will be at the MESC office in Escanaba, 1323 Ludington street, October 22 to 26, to interview applicants for civilian positions overseas.

The Air Force needs personnel assistants, stenographers, typists, nurses, engineers, draftsmen, librarians, instructors, teachers, auditors and skilled trades workers. Positions are located in Japan, Okinawa, Guam, Alaska, Germany, England, Newfoundland, and Philippine Islands.

Position salaries range from \$2450 per annum to \$6400 per annum. Interviews with the Air Force representative will also be held at the MESC itinerant points as follows: Gladstone city hall, 10 a. m. on October 23; Nahma Community Building, 10 a. m. on October 24; Oshtemo Hotel, 10:30 a. m. on October 25.

G. J. E. Berwin, Manistique, Dies

Had The Blindman Store There

MANISTIQUE—G. J. Edmund Berwin, 60, who for many years has operated the Blindman Store in Manistique, died Friday afternoon at 4:00 at his home, 517 Range street, following a long illness.

Mr. Berwin was born in Kristiansund, Norway, Sept. 14, 1890. He came to this country and to Manistique in 1910. For many years he worked in the woods and in the mills near Manistique. On June 26, 1915, he married Iva Larson, who survives him.

He lost his sight many years ago as the result of an accident and since that time had earned his livelihood in the small confectionery and cigar store.

For years he had been a member of St. Peter's Norwegian Lutheran church. He was also a member of the Golden Star Lodge.

Surviving are his widow; one daughter, Evelyn Berwin, Alpena, Mich.; one son, Gilbert of Manistique; a brother in Canada and two brothers and two sisters in Norway.

Funeral services will be held at the Kefauver and Jackson funeral home at 2 Monday afternoon with the Rev. G. A. Herbert officiating. Burial will be made in the Fairview cemetery.

Employment Security Commission Audit Begins Next Week

LANSING—(AP)—The first full-scale audit of the multi-million dollar Michigan Employment Security Commission will begin next week, Auditor General John B. Martin, jr., said today.

Martin said the audit program had been worked out "with the fullest cooperation of the commission and its staff."

He added that the preliminary survey has convinced him the commission's handling of unemployment compensation should be subject to a perpetual audit by especially trained auditors. He said he would ask the legislature to provide money for such a program.

"On the present basis," he said, "we would be able to audit the agency only once every three or four years, and this will not afford adequate protection to all those affected."

The Unemployment Compensation fund exceeded \$337,000,000 last June 30, earnings of the fund totaled \$6,500,000 in the year, employers during the year contributed \$71,000,000 and benefit claims in the same period totaled \$26,000,000 Martin said.

Elect Juel Lee Bank President

Named To Succeed Late M. N. Smith

Juel Lee, president and general manager of the Birds Eye Veneer company, has been elected president of the Escanaba National Bank to fill a vacancy created by the death of M. N. Smith, who served as president for many years.

The election of Lee and other officers of the Escanaba National Bank was held yesterday at a meeting of the board of directors. Lee had served as vice president prior to his selection by the directors for the presidency.

Stack Smith, treasurer of the Escanaba Paper company, was elected vice president of the bank. William J. Schmitt, cashier of the Escanaba National Bank since 1927 and an employee beginning in 1907, was elected executive vice president.

Edward L. Moersch, assistant cashier, was elected cashier. He has served as assistant cashier since 1927 and employee since 1919.

Other officers are William Leiper and Chester Isaacson assistant cashiers.

The Escanaba National Bank's board of directors comprises Juel Lee, Stack Smith, Hubert H. Shepeck, Coleman Nee, Percy Rosemurgy and William J. Schmitt.

Fox

Mrs. Edstrom's Birthday Party

FOX—Mrs. William Edstrom celebrated her birthday when a group of neighbors and friends called at her home. A cafeteria style lunch was served and a social hour was spent. Those present were Mr. and Mrs. Schulze of Meenominie; Mrs. Alma Lorentz of Brooklyn; Mrs. John Barstow, Mrs. Jesse Deiter, Mrs. Clarence Anderson, Miss Anna Gagnon, Mrs. Fred Peterson, Mrs. Einar Jacobson, Mrs. Earl Petersen of Ford River and Mrs. William Keowton.

Briefs

Mrs. Alma Lorentz of Brooklyn N. Y., is visiting friends in Fox. She is staying at her cottage.

Mr. and Mrs. Maynard E. Lee of Arlington, Va., arrived here and have been staying at the William Edstrom home. Mr. Lee has now left to re-enter the Walter Reed hospital for treatment, but Mrs. Lee remained for a longer visit with her mother.

ford adequate protection to all those affected."

The Unemployment Compensation fund exceeded \$337,000,000 last June 30, earnings of the fund totaled \$6,500,000 in the year, employers during the year contributed \$71,000,000 and benefit claims in the same period totaled \$26,000,000 Martin said.

\$2500 Already Raised Here In Chest Drive

Early tabulations in the Escanaba Community Chest drive show an encouraging attitude on the part of the community to give generously. The large white feather on Ludington and 11th street is starting to take on the appearance of a red feather at its lower extremity.

Approximately \$2500 has come in, and the various committees are just shifting into high gear. Reports from the various committees have been obtained.

Adult School To Open Soon

Bark River-Harris Being Organized

The Bark River-Harris adult education program will get under way next week, T. E. Orhanen, director, announces.

Much interest has been shown in sewing, and a class in that subject will be among the first to start.

More enrollments are needed for welding, typewriting, and other subjects. Persons wishing to take the courses are asked to communicate with Director Orhanen either at the Harris high school or at his home in Escanaba by telephone or postcard.

Briefly Told

Camera Club — The Escanaba Camera club will meet Monday at 7:45 p. m. in the club rooms at the Red Cross headquarters. Members are urged to bring their prints of "BOATS", the subject for this month's competition.

Stamp Collectors — The Escanaba Philatelic society will hold a meeting at 7 Sunday evening in the city hall council chambers. S.P.A. books will be shown. All stamp collectors of Escanaba and vicinity are invited to attend.

Rotary Program — A. V. Aronson, Escanaba city manager, will present a progress report on the city's municipal water and propane gas projects at a meeting of the Escanaba Rotary club Monday noon at the Delta hotel.

Bark River Lions Monday — The Bark River Lions club has announced that until further notice all meetings will be held on Monday instead of Tuesday. The next meeting will be held at Tom Swift's Monday, October 22, at 7 p. m. All members are urged to attend.

Yosemite Valley, California, was named by soldiers pursuing Yosemite Indians in 1851.

Below is the score to date:

Advance Gift Committee—\$750.
Industrial Committee—\$905.
Ludington Street—\$390.50.
Professional—\$160.
Civic and Fraternal—\$90.
Miscellaneous—\$204.50.

Use Window Stickers

The other committees are also busy at work, but have not reported as yet. These include the schools, unions, 23rd Street, Stephenson, Washington and Sheridan. The block to block canvass of the residential area will commence Wednesday, October 24. It is hoped that the other committees will be well under way to completion by this time.

The drive chairman, Nicholas Chapekis, urges everyone who has contributed to place the window stickers given them in a conspicuous place on their homes. By this means the block to block residential solicitors will avoid these homes, and the campaign can be completed more quickly. Contributors are also asked to wear the red feathers in their hats.

Volunteers at Banks

Volunteers are working in the lobbies of the three Escanaba banks.

During the day, the following women are taking charge: Mrs. James Degnan, Mrs. Merritt Kason, Miss Fern Fontana, Mrs. Clarence Zerbel, Mrs. Harry Gruber, Mrs. Denis McGinn, Mrs. Roy Starrine, Mrs. Guy Knutson, Mrs. Nels Jensen and Mrs. Walter Dickson.

On Friday evenings, six Horizon club girls of the Camp Fire organization are on duty. They are Joan Nelson, Joan Northup, Pat Heminger, Joan LaCrosse, Jerry Nichol and Donna Farrell.

Garden

Leonard Clifton Home

GARDEN — Leonard Charles Clifton of the U. S. Army is visiting his parents, Mr. and Mrs. Earl Clifton at Kate's Bay. He recently returned from Korea and this is his first visit home since he enlisted when he was 17 years old four years ago. His brother, Earl, who also is in service, is expected home in the near future.

Block Canvass Starts Monday

Ludington Street Drive Will Begin

Monday is "D" day for the block-by-block Community Chest drive on Escanaba's Ludington street, Chairman Claude Leclerc announced today.

Solicitors in each block from the 200 block the full length of Ludington street to 23rd street will start canvassing all the business establishments Monday morning and expect to be complete by mid-week.

The captains and their assistants in each block are as follows: 200-300—Art Jensen, Pat Hayes 400—John Bartella, John Mitchell 500—T. D. Vinette, Mel Oslund 600—Claude Tobin, Harold Snyder (solicitation completed) 700—Charles Johnston George Walker, H. C. Gerletti 899—Warren Morrison, Robert Thyberg 900 — Ivan Kobasic, Robert Mosenfelter 1000—Arthur Stratton, John Lasnoski 1100 — Charles Gessner, Bill Heminger, Robert Gannon, Kibby Treiber, 1200—Isadore Stein, Lester Olson 1300—Stanley Beggs, Al Wiles, Josephine Saykly 1400—Fred Swank, Jim Ferguson 1500—Clarence Zerbel, Dalip Rehnquist 1600—Everett Knuth, Dr. Joseph Ruwitch 1700—Glenn Mitchell, Ragnar Beck 1800-1900—Austin Stegath, Earl Frechette 2000-2300 — Robert Glidden, Wendell Erickson.

When Peter Stuyvesant was Dutch governor of New York, his authority also extended to Aruba and Bonaire, two Caribbean islands.

Converted Ore Carrier Will Come To Escanaba

The Str. Tom M. Girdler, wartime ocean-going cargo ship converted into an ore carrier, will load her first Great Lakes cargo at Escanaba.

L. A. McMillan, Chicago & North Western dock agent, said today the 15,000-ton cargo vessel, one of the larger boats on the lakes, is expected here early next week.

Second largest ship to negotiate the Chicago river, the Str. Girdler came to the lakes via the Mississippi and the Chicago river from the Gulf of Mexico. Previously lengthened at Baltimore, the Girdler is received her final fitting out at Chicago before leaving for Escanaba on her maiden voyage.

The vessel was lengthened by 80 feet to its present length of 600 feet. The conversion was on the

bow of the boat to make her conform more to the Great Lakes type. She has a width of 71½ feet.

The Nicholson Universal Steamship line is owner of the Girdler, and the vessel was named for chairman of the board of Republic Steel.

Enough Is Enough; It's All Russian

BUDAPEST—(AP)—The former Studio Cinema was renamed the Gorkij Cinema and will show only Russian - language films, the Hungarian newspaper Magyar Nemzet announced.

This is supplementary to the Hungarian diet which includes compulsory study of Russian in the schools as the main dish.

Cod Liver Oil Benefits Youth

562 Bottles Given Away Last Year

Five hundred and sixty-two bottles of cod liver oil were distributed to various communities in Delta county last year for the physical benefit of needy youngsters.

The cod liver oil project in this county is financed by the Delta County Community Chest, which is now conducting its annual campaign for funds.

Handling of the cod liver oil fund is one of the functions of the lay health committee of the Delta county health unit.

The oil is purchased in barrels, and filled into bottles that have been thoroughly cleaned and sterilized by committee members. Distribution is done through the health department by nurses, who take the cod liver oil on their rounds, and by teachers in the city and rural schools. The oil is also given out at the health center.

Cod liver oil is recommended as a general health builder for year around use, especially in this northern area where there is so little sunshine to provide the necessary Vitamin D. One teaspoonful of oil per day provides enough Vitamin D for proper growth.

Cod liver oil is valuable in preventing rickets and colds, and it aids in the development of bone and teeth.

Bottles of oil were distributed throughout the county last year as follows: Baldwin 5; Bark River, 28; Bay de Noc, 3; Brampton, 5; Cornell, 16; Ensign, 3; Escanaba, 37; Ford River, 6; Fairbanks and Garden, 41; Maple Ridge, 13; Masonville, 36; Nahma, 1; Wells 95; city of Escanaba, 219; city of Gladstone, 42; no address, 12; total 562.

Women Voters' League Formed

Another Meeting Friday, Oct. 26

Committees were formed at the organization meeting of the Escanaba chapter of the League of Women Voters at the Escanaba city hall Friday afternoon.

State officers of the league addressed the meeting and explained its purposes. They were: Mrs. George Engels of Detroit, a member of the national organization committee, and Miss Mary Fratcher of Ann Arbor, field secretary for the Michigan league. Mrs. Victor Powers of Escanaba presided at the meeting.

League's Program Told
Mrs. Engels said that the league was formed in 1920 to teach women the mechanics of voting. This led to a study of government, both its structure and administration. Political measures concerning women and children were of primary importance to the league in its early days, and much was done in this field. Mrs. Engels pointed out that this naturally brought about a study of taxation.

"Today, the league works nationally for a stable economy and peaceful world," Mrs. Engels said. "On the state level, the issues are children's services and the possible need of tax revision."
"The league is non-partisan," Mrs. Engels continued. "It never backs candidates, but it does back issues after they have been thoroughly studied and accepted by the members."

Will Meet Oct. 26
Mrs. Engels also stated that the main purpose of the league is to promote political responsibility through informed and active participation by citizens in government.

Committees appointed are as follows: Nominating, Mrs. Victor Powers; Mrs. N. L. Lindquist, and Mrs. Merritt Kasson; by-laws, Mrs. Howard Timms and Mrs. John Greene; and resource, Mrs. Robert Mosenfelder and Mrs. Oliver Fuller.

A meeting will be held Friday evening, Oct. 26, for all interested women. Mrs. Engels and Miss Fratcher will be working with Menominee and Escanaba women for one week.

Mrs. Jolson And Asa Get \$154,000 Home

LOS ANGELES—(AP)—Al Jolson's widow and adopted son have been awarded full ownership of the singer's \$154,000 home in suburban Encino.

Mrs. Erle Jolson, 25, was granted half ownership under community property laws in a court ruling. The other half goes to Asa Jolson, 2.

Mrs. Jolson lost her plea for lifetime use of the \$65,000 winter home at Palm Springs. The court said this was part of the \$3 million estate, about half of which was left to charity, the remainder to the widow and child.

HOME TOWN HARMONIZERS—They won't look like this, but Escanaba's barber shop quartet will be all dressed up when they open the parade of quartets at the Oliver Memorial auditorium at 8:15 tonight. The occasion is the fourth annual show of the Escanaba SPEBSQSA, and the local Four-Tissimos will be singing in such distinguished company as the Gay Nineties of Montevideo, Minn., the Interludes of Midland, Mich., The Sing-Copates of Appleton, Wis., and the For-Mors of Madison, Wis. Left to right in the gay picture above are: Fritz Provencher, bass; Art Jensen, Baritone; Lowell Sundstrom, tenor; and Ken Thompson, lead.

Water Eating Away Michigan Shoreline; It Can't Be Helped

By JAMES A. O. CROWE
LANSING — (AP)—Michigan's shoreline is being steadily eaten away by a combination of high water levels and water action—and little or nothing is being done about it.

Property owners on the longest coast line of any state in the nation are suffering heavily because the levels of the Great Lakes are as high as they have ever been since records were started in the early nineteenth century.

State and municipal beaches have no immunity from the scourge and even some state highways skirting the lake shores are in danger of toppling into the water.

Too Much Rain
There has just been too much rain in recent years over the vast area which is drained by the lakes and the St. Lawrence river. Just so much water can run out of the river into the Atlantic ocean, and when the total rainfall exceeds this discharge, the lakes begin to climb.

They have been climbing by fits and starts for at least 15 years.

U. S. weather bureau meteorologists are on record with the prediction they will continue to climb for at least another year. They base this on observations of rainfall charts and lake level records of past high water cycles. The water always continues to rise a year or so after the heavy rain fall cycle.

Of course, there is no indication that the heavy rainfall is over, so the high water headache may continue for years.

Land Undermined
If the high water would lie still, there would be little if any problem. It is when the water is on the move that beaches are swept away, whole chunks of land are undermined, and lake cottages fall into the water.

Three northeast storms this summer did hundreds of thousands of dollars in damage in the Saginaw Bay area.

The level of the bay was some two feet above normal, and the stormy waters ate away at the sandy shores eroding in places up to two feet of sand off beaches and driving the shoreline back.

Seawalls along the shore which had stood water ravages for years toppled, docks, boat hoists and other projections into the water were ripped away.

After the most recent storm, the shoreline from Saginaw river north to Pinconning was a shambles. Hundreds of walls were toppled, many cottage foundations undermined or broken, boats wrecked and what few docks had withstood earlier storms or had been replaced were torn away.

Seawalls Costly
Concrete seawalls some costing more than \$2,000 for 100 feet of bay frontage were down. The ravaging water ripped away one wall made of "impregnable" steel sheet piling.

The Lake Huron shore near the Tawas is suffering badly from erosion. Flares burn nightly on US-23 between Tawas City and East Tawas to mark a section where waves have already partially loosened guard rails and where sheet piling was hastily installed two weeks ago to prevent lake water from undermining the highway.

At least one cottage, on Lake Huron between Tawas and Oscoda where cottages are located on high banks along Lake Huron, owners are waging a continuing battle to keep the water from undermining their buildings.

Similarly, the Lake Michigan coast is suffering, and damage there is an even more constant process, the prevailing west winds constantly pounding the high water against the shore.

Damage Runs High
A state highway in Berrien county is on the verge of being abandoned as the shoreline eats closer and closer to its edge.

Damage in Houghton and Keeweenaw counties, where Lake Superior's record high water is getting in its clutches, is estimated at \$50,000.

Another grave aspect of the problem is the damage along the busy St. Mary's, St. Clair and Detroit rivers. Here most of the water motion is supplied by the constant stream of passing freighters. Even though they are held to a nine-mile speed, the churning

they set up in the high water grinds away the shores and the man-made improvements attached to it.

On the American side of the St. Mary's river alone this year, property damage has been estimated at \$1,000,000.

About the only governmental help a beleaguered property owner can get now is counsel from the state water resource commission staff. The staff will advise on the type of protection walls and other devices to minimize damage.

No Money Available
Not a penny has been appropriated by the legislature to build these structures, even for governmental agencies. There is a movement on foot, however, to work out some kind of state aid program.

The federal government has a little money for structure construction, but it can only be used by local governments on publicly owned property.

And there is no way that the levels can be lowered by artificial means.

The only lake level control operated along the whole system is at Sault Ste. Marie, where a system of locks and gates can be manipulated to govern the flow of water.

The trouble is that all gates have been wide open all this year, and this has not been enough to drop the Lake Superior level.

At the outlets of all the other lakes, nature, which has been running the show for ages, still reigns supreme.

Sit And Hope
This is being used as a talking point in favor of the St. Lawrence Seaway, because in addition to deep channels and other structures for ocean-going ships and in addition to power plants, the seaway plans call for gates and like means to permit man to regulate the flow of water out of the lakes.

The seaway is still a long way off at best, state or federal aid for control structures is not much closer, and there is no sign of the lake levels' going down immediately.

So the best the lake-side property owner and everyone else concerned can do is sit tight and hope.

Before a skunk uses his defensive liquid he is likely to give warning by hissing, clicking his teeth and patting the ground.

Dr. Crump Says:

Chinese Will Reject Communism Eventually

Only one-tenth of one per cent of the Chinese people are Communists, but the rest of them choose to live rather than die for their country and its traditional values, Dr. James I. Crump, jr., of the University of Michigan said in a lecture at the Escanaba junior high school last night.

Dr. Crump predicted that eventually the Chinese people will reject Communism because its ideologies are in sharp conflict with their culture and ideals. This change might take many years, however, he added.

"The Chinese have a keen sense of the right of revolution," Dr. Crump said. "Whenever a king or a government fails to perform its duty to the people, they believe they have the right to eliminate them."

The Kuomintang party, Dr. Crump pointed out, proved to be a failure in the eyes of the Chinese, and he predicted he will never be "resuscitated." In our relations with China, the speaker said we must think and act in Chinese terms. Much information can be drawn from a study of Chinese history and culture to determine how we should deal with China today.

Dr. Crump, who spent three years in counter intelligence service with the Office of Secret Services in the China-Burma-India theater during World War II, traced three basic Chinese cultural ideals which he listed as the Confucian, Legalist and Taoist.

State Of Anarchy
Confucianism was described as a philosophy which originally emphasized the virtues of scholars.

The Taoist belief was predicated on the conviction that man could survive best by understanding and following the path of nature. Instead of working against nature, the introspective and subjective Taoists attempted "to go the way of nature."

They shunned all varieties of extremes in the belief that everything which reaches an extreme is subject to

reversion.

Dr. Crump noted that two of these three sets of thought began to undergo "startling changes" around 200 B.C. Confucianism became involved in religion and Taoism began to veer toward a search for magical knowledge.

"The Legalist didn't change because he was not a true philosopher," Dr. Crump said.

Crystallization Period
During the period from 800 to 1900 A.D., the three cultural ideals began to merge with the result that, today, China's cultural ideal is an amalgamation of the three.

It was at this juncture that Dr. Crump related this cultural ideal with Communism.

One of the pronounced characteristics of the amalgamation is that it contains an aversion to extremes (a concept incorporated from Taoism), the speaker said. The modern Chinese tend to adhere to the mean, or average. This, Dr. Crump explained, was directly in conflict with Communist philosophy. "Communism as an ideology represents the most extreme of extremes," he said.

Dr. Crump illustrated another point of friction between modern Chinese culture and Communism. He said that the highly developed sense of propriety instilled in the amalgamated culture from Confucius was diametrically opposed to Communist ideology. "In Communism, there is no room for gentlemanly action, or propriety, the speaker concluded.

Confucius' Belief
The Taoist belief was predicated on the conviction that man could survive best by understanding and following the path of nature. Instead of working against nature, the introspective and subjective Taoists attempted "to go the way of nature."

They shunned all varieties of extremes in the belief that everything which reaches an extreme is subject to

reversion.

reversion.

Dr. Crump noted that two of these three sets of thought began to undergo "startling changes" around 200 B.C. Confucianism became involved in religion and Taoism began to veer toward a search for magical knowledge.

"The Legalist didn't change because he was not a true philosopher," Dr. Crump said.

Crystallization Period
During the period from 800 to 1900 A.D., the three cultural ideals began to merge with the result that, today, China's cultural ideal is an amalgamation of the three.

It was at this juncture that Dr. Crump related this cultural ideal with Communism.

One of the pronounced characteristics of the amalgamation is that it contains an aversion to extremes (a concept incorporated from Taoism), the speaker said. The modern Chinese tend to adhere to the mean, or average. This, Dr. Crump explained, was directly in conflict with Communist philosophy. "Communism as an ideology represents the most extreme of extremes," he said.

Dr. Crump illustrated another point of friction between modern Chinese culture and Communism. He said that the highly developed sense of propriety instilled in the amalgamated culture from Confucius was diametrically opposed to Communist ideology. "In Communism, there is no room for gentlemanly action, or propriety, the speaker concluded.

Confucius' Belief
The Taoist belief was predicated on the conviction that man could survive best by understanding and following the path of nature. Instead of working against nature, the introspective and subjective Taoists attempted "to go the way of nature."

They shunned all varieties of extremes in the belief that everything which reaches an extreme is subject to

Serious Electric Problem Is Confronting City Of Escanaba

A city problem of great magnitude and perplexity was discussed briefly by city councilmen and City Manager A. V. Aronson at the meeting of the city council Thursday evening.

It is the problem of electric power for Escanaba and it was brought before the council by James Doran, representing the Escanaba Trades and Labor Council. Doran reported that the labor group is disturbed about reports that the city is facing a power shortage so acute that there may be insufficient electricity to meet the community's need during the Christmas holiday season.

Whether there will be any necessity for electric restrictions at Christmas time is still uncertain, but there is no doubt that the power problem is serious. Because of high water this summer, generating facilities here were more than ample to meet all needs—for the paper company and for customers of the power company, including the city of Escanaba.

Water power usually recedes in the winter months, however, and of course, the electric demand increases at this time. The City of Escanaba's electric requirements are accelerating and at a pace that is quite alarming. Projections of the rate of acceleration indicate that if Escanaba now provided its own generating capacity to meet

all of present requirements, it would only be half enough ten years hence.

Technically, the city's electric requirements are protected now under a contract with the Upper Michigan Power and Light company that extends for eight more years. The company has already notified the city that it cannot renew the contract when it expires and would like to get rid of the city load earlier, if possible. The rate fixed in the contract is comparatively low and, of course, costs are mounting steadily.

One thing seems quite apparent. Regardless of how the electric problem ultimately will be settled, it will certainly mean higher electric costs to the city. If the city is forced to spend two or three million dollars to establish its own generating capacity—and that is a distinct possibility—the electric profits now being diverted to the general fund to help pay the cost of operating city government will no longer be available.

The problem should be clarified when the results of the survey now being made by Consoer, Townsend and Associates are reported.

Downtown Parking Space Is Shrinking

RECENTLY city street crews, acting under orders from the Escanaba police department, marked off 20 foot no parking zones on the four approaches to every street intersection on Ludington street. The effect of the action is an increase in the parking problem on Ludington street since 40 feet of parking space is removed in each block.

The action of the police department was taken in enforcement of a state law which requires clearance at each intersection for purposes of visibility. However, the 20 foot no parking zone is not being applied on the streets intersecting Ludington street nor elsewhere in the city.

The change may be justified in view of an increased traffic problem but if so, it likewise follows that the city had better act to find off street parking space for the cars that are unable to get parking room on Ludington street. The parking problem is becoming more acute every day.

We do believe the police department was somewhat hasty in establishing the no parking zones without advance announcement to the motoring public and without more plainly marking the restricted areas. Yellow curb strips were painted to indicate a no parking zone. It would have been plainer to all motorists, however, if "No Parking" signs were painted on all these areas. Also, of course, the yellow lanes formerly used on the streets in these areas should likewise have been obliterated.

Unfortunately, many motorists, unaware of the new developments, drove into the restricted areas and were ticketed for traffic violations.

Other Editorial Comments

SEAWAY REVIVED

(Toronto Daily Star)

The bleak outlook for an early start on the St. Lawrence seaway is completely reversed by President Truman's promise to back an all-Canadian project unless Congress acts promptly to authorize joint construction of the big undertaking. The powerful anti-seaway lobby in Washington and recalcitrant congressmen who voted down the 1941 agreement for joint action have been severely jolted by . . . the Truman-St. Laurent announcement that Canada will proceed alone unless Congress approves the plan without delay.

Politicians and big private interests who have successfully blocked the great navigation and power undertaking for decades evidently through Canada was bluffing on the question of carrying out the project on its own. The events of the last few days have proved otherwise and it is now evident that American pressure politics will not be permitted to frustrate the scheme, regarded by both governments as essential to North Atlantic peacetime and defense interests.

Questions and Answers

Q—Was John Paul Jones buried in France or at Annapolis?

A—John Paul Jones died in Paris and was buried there. Then 113 years after his death the body was removed from Paris to the crypt of the Naval Academy at Annapolis.

Q—How many children did Abraham Lincoln have?

A—Lincoln had four sons—William Wallace, Thomas (Tad), Edward Baker, and Robert Todd Lincoln.

College Bore

By Gordon Martin

You can see him 'round the campus when a football week-end comes, and he waves his college pennant while he loudly beats the drums. Though his hair is growing scanty and he's gained a lot of weight, he's the life of any party and he likes to celebrate. He's the grad who doesn't like to face the sad but certain truth, that as long as thirty years ago, he said farewell to youth.

But he doesn't want to let it go and thinks he's still a boy, and a football game on Saturday he always greets with joy. He arrives the night before to tour his good old college town, and he likes to boast of by-gone days when once he knew renown, as a leader on the campus and a salty sophomore, and he doesn't know he's now become a champion week-end bore.

He would tell you of the good old days and how they played it then, and he says that those were hardy times when men were really men. He is full of talk of "way-back-when" and lots of anecdotes, but nobody else cares much about the age of coonskin coats. And it's likely he will never face the sad but certain truth, that as long ago as thirty years, he said farewell to youth.

MARTIN

Merry-Go-Round

By DREW PEARSON

WASHINGTON — When Sen. Walter George heard the news that the House of Representatives had rejected his loophole-riddled tax bill, he snorted: "The CIO did it."

Big, bald, Sen. Gene Millikin, Colorado Republican, was more whimsical. Meeting Democratic Sen. Hubert Humphrey of Minnesota, who had battled against tax loopholes, he joked:

"When the Republicans and the CIO get together, it's an unbeatable combination. That's a partnership you can't lick."

What he and George referred to, of course, was that labor and big-city populations were dead opposed to the tax bill because of the many loopholes favoring upper-bracket taxpayers.

Both, however, overlooked one other important factor behind the defeat of the tax bill—namely, the astute political strategy of cagey GOP leader Joe Martin of Massachusetts.

Joe was the mastermind behind the almost solid block of Republican votes against the tax bill. His official excuse was: "Less government spending rather than higher taxes." His real reason: "The longer passage of a tax bill is delayed, the more it will help the Republicans."

Republicans are not shouting git from the houseposts, but what they really want is a tax delay until next year, thus putting the Democrats in the embarrassing position of passing an unpopular tax bill in an election year—something the party in power traditionally tries to avoid.

SOUTHERN DEMOCRATIC CHAIRMAN?

There's a lot of talk among Democrats about getting away from the precedent followed under Roosevelt of picking a big-city Irish Catholic as chairman of the Democratic national committee. No religious prejudice is mixed up in this, but rather geography.

Southern Democrats point out that no southerner has been chairman of the national committee since Cordell Hull in 1920. They feel that it's now vital to weld the party together and woo rebellious Dixiecrats back into the fold.

This is one reason why able Wilson Wyatt, ex-mayor of Louisville, Ky., is being pushed for the Democratic chairmanship.

Westerners also point out that no one from their section of the country has led the Democratic national committee in a long time; so are boosting Ex-Congressman John Carroll, one of the ablest men recently to serve in Congress. Another westerner under consideration is George Killian of San Francisco, former Democratic treasurer, under whom there were no scandals.

Roosevelt's reason for putting big-city Irishmen at the helm of the party was partly because he considered them shrewd politicians, partly in order to swing the big-city vote which is predominantly Catholic. Thus, Jim Farley was followed by Ed Flynn of the Bronx; Flynn was followed by Frank Walker of Scranton, Pa., and New York; then Bob Hannegan of St. Louis; who was replaced by executive director Gael Sullivan of Chicago and Howard McGrath of Providence, R. I.; who were succeeded by Bill Boyle of Kansas City—all from big-city areas.

Note—One eastern Irishman for whom President Truman has great personal regard is John Sullivan of New Hampshire, former secretary of the navy. "John is so conscientious," Truman recently told a friend, "that he couldn't write Frank Knox's will until he resigned from the treasury. He said he would not accept outside work when he was on the government payroll." (Sullivan was then assistant secretary of the treasury and Knox was secretary of the navy. Both came from Manchester, N. H.)

WHITE HOUSE CLEANUP

President Truman has told trusted friends confidentially of his plan to shake up the White House staff as well as the Democratic national committee.

"I think we need some new faces and new ideas in the White House," he said. "I'm just getting the same old thoughts back again."

He also added another interesting angle. "Whoever gets the nomination next year," he said, "shouldn't be handicapped by scandals at the Democratic national committee that reach into the White House, even if the publicity is exaggerated by the newspapers."

The president remarked that he had decided Democratic Chairman Bill Boyle should resign some weeks ago, though Boyle's friends had pleaded with him against the move. Finally, he called Boyle over and said in effect: "I know you've been complaining about your health. Before we get into the campaign preliminaries, you'd better get a physical checkup." Boyle took the hint.

Into The Past

10 YEARS AGO

Nahma—Work on U. S. forest highway 13 through the Hiawatha National Forest is being pushed forward as rapidly as possible, A. T. Hoffmeyer, Forest Service engineer, stated today.

Escanaba—The automobile traffic toll in Delta county mounted to 13 Saturday and Sunday as three more Escanaba men were killed in smashups. The victims were: Walter J. Taylor, Harold E. Brick, and Ludwig N. Nelson. A fourth man, John Seidl, died of injuries Saturday night in an auto accident on the Ford River road.

Escanaba — The Escanaba Commerce association has decided to launch a safety campaign.

London—Soviet accounts indicated today the Germans still were inching forward upon Moscow, but only over battlefields reddened by a great slaughter.

20 YEARS AGO

Los Angeles—A slight, blonde woman of 26 years, wife of a physician and daughter of a minister, was sought today as the perpetrator of a murder plot in which two women were killed and their bodies sent here in trunks from Phoenix, Arizona. The object of a police search is Mrs. Winnie Ruth Judd, former employee of the Phoenix Medical Clinic and wife of Dr. W. C. Judd, who is under technical arrest here. The victims were Hedwig Samuelson, 27, and Mrs. Agnes le Roi, 32, who worked in the clinic.

Britons May Vote Against Welfare, But Not For Government By Tories

WINSTON CHURCHILL: Still the "great man," the orator who sets his audience on fire.

CLEMENT ATLEE: The typical "little man," the school teacher who lectures disturbed Britons.

By LEON DENNEN

LONDON—(NEA)—A majority of Britons will vote on Oct. 25 AGAINST austerity and the welfare state—and not FOR Winston Churchill's Conservatives—should the Labor government suffer defeat in the general election.

On the surface Labor's troubles seem mainly economic. Britain is spending much more than she earns. Her trading deficit with the rest of the world is now running at the rate of about \$1,700,000,000 a year.

The British exist largely on imported foods and earnings from overseas trade. Britain must export to live. But British exports are dwindling while the costs of essential raw materials are rising.

Because of an unfavorable trade balance Britain is facing another serious dollar shortage. This is in part due to the tense international situation and Britain's heavy rearmament burden amounting to about \$13,000,000,000 annually.

But there are other — perhaps weightier — reasons why the Labor government has lost the confidence of many "little people."

Reckless spending, costly "social experiments," mismanagement in the nationalized industries are major contributing factors in Britain's economic plight. British socialism has many traditional virtues, such as integrity and idealism. But it has little imagination, energy or initiative.

The myriad of Labor bureaucrats sitting on the management boards of the various nationalized industries have few skills and less executive ability. As industrial managers they are little more than parasites gnawing at the vitals of the producers.

Few new Labor leaders are emerging to take the place of such oldtimers as Clement Attlee, Herbert Morrison and the late Ernest Bevin.

This is also true of the Conservatives who would be lost without Winston Churchill, still one of the greatest orators ever heard and a widely-respected leader.

The electoral campaign, in fact, is less a battle of political issues than of personalities as symbolized by the two chief protagonists—Churchill and Attlee.

At 76, Churchill is still the "great man," the "legend," the "courageous war leader"—the orator who sets his audience on fire.

Attlee, on the other hand, is the typical "little man," the school teacher who lectures the disturbed Britons, explains, simplifies and seeks to soothe frayed nerves.

By a peculiar twist of history it is the thundering Churchill who represents the Conservative view while the scholarly Attlee speaks for social reform. Their roles should have been reversed.

Churchill's colorful personality rather than the Conservatives' program may sway many marginal votes in favor of his party. The Tory supporters of "free enterprise" claim (with some justice) that Britain is living in a false paradise. Labor's "planned economy" is unworkable, they say.

But so far they have failed to

show how they would solve Britain's chronic economic ills. Their election platform is extremely vague on this point.

Actually, the Tory "Election Manifesto" would impress Sen. Robert A. Taft and his U. S. Republican colleagues as a radical document.

Almost the only concrete proposals put by the Tories to the voters are the return to private ownership of the recently-nationalized steel industry and trucking. But all other industries nationalized by Labor—coal mining, railroads, aviation, and even the Bank of England—would stay in the hands of the state.

The Conservatives pledge to check inflation, increase production and introduce rigid economies in government spending.

But in the same breath they promise to build 300,000 new houses and retain the more extravagant trimmings of the welfare state, including food subsidies, Labor's costly social services—free dentures, spectacles and all.

With Britain on the brink of bankruptcy, who will pay for these costly social and economic schemes?

Labor "will disarm the capitalist tiger claw by claw," says Anselm Bevan. Another squeeze on the "capitalists" who have been getting "fatter and fatter" will pay the bill.

Bevan does not speak for the majority of the Labor Party. But he has strong support in the lower ranks. At the Labor Party's recent convention he scored a spectacular victory getting four out of seven contested seats in the executive council.

Meanwhile, the Tories say little beyond indulging in pious generalities and the advantages of "free enterprise" over "planned economy."

The chief distinction between the two major parties is that Labor does not admit the existence of an unsolved economic problem for Britain while the Tories recognize its existence but do not say what a Conservative government would do about it, the Economist recently commented.

Yet so disgruntled are the British voters, especially the "little people," that they may give the Conservative party another try.

Fringed Beauty

When most other flowers have completed their cycle of growth, blossom and fruition, the exquisite fringed gentian opens its blue heart to the deep blue of October sky. This is the loveliest member of a large family; but as so often happens, one surpassingly beautiful member obscures the good qualities of others. The gentians include the pinks, the centaury, the ague weed, soapweed and bartonia; the fringes gentian, blossoming late with its appealing and distinctive fringed lace, is the best known of all.

Somehow its scientific name, Gentiana crinita, suggests the delicate, old-fashioned lacy of the Victorian era. You must get away from the beaten paths to discuss it; thoughtless and greedy persons have ruthlessly destroyed it along the travelled thoroughfares. It grows in moist meadows, in lowlands and creek bottoms. Sometimes in an open spot in a swampy area, one comes upon a sizable patch of them, beautiful in the golden sunlight. It grows from Quebec to Georgia and westward beyond the Mississippi.

Nature's beauty is always functional and the fringe on this autumn flower was developed for a purpose. Centuries ago, ants climbed into the nectary cups for the tiny drop of sweetness. Therefore the bees and butterflies passed it by and Nature's fundamental law of cross-pollination was thus violated. Over long eras, the flowers developed a fringe to frustrate robber ants and to induce the winged insects to come with their life-vigor grains of pollen from other gentian plants. A poet has written that the fringed gentian comes with its "merry cheer" to help lift our spirits during "melancholy days." But there is nothing sad about October. The fringed gentian's loveliness is a part of the beauty of year when

we are travelling through days the other side of summer. Each season brings its own special rewards; each is a fundamental part of the profound rhythm that governs our universe. When the blue beauty of the fringed gentian is part of a sunlit day, it means Earth's schedule is following a pattern laid down in ancient eras.—By Haydn Pearson.

So They Say

Never . . . should there be a fixed concept of fleet distribution between the two oceans. Strategic considerations which develop from the international situation will dictate the distribution.—Adm. William Morrow Fechteler, chief of naval operations.

New family formation in 1951—more than double the amount of new low-cost housing building this year—may create another housing shortage for lower income families during the next few years.—Donald E. Ryan, vice president, Investors Diversified Services, Inc.

The fate of Indo-China will be the determining factor in the destiny of southeast Asia, of all Asia and ultimately of the entire world.—Gen. Jean de Lattre de Tassigny, French high commissioner in Indo-China.

It is . . . disturbing that so many Americans appear to be more interested in disparaging and discrediting Truman than in licking Communism.—Sen. Irving M. Ives, (R., N. Y.)

The world needs another dancer more than it needs another diplomat.—Ramon Font-Felizola, heir to Venezuelan fortune, on way he's studying dancing.

Good Evening...

By CLINT DUNATHAN

UNITED NATIONS — The United Nations and its ideal of a peaceful world has many friends, ranging from the mighty in the world of diplomacy to the folks of Bay de Noc township in the east shore of Little Bay de Noc.

Women of the Bay de Noquette Grange have completed their "project of the year"—sewing a United Nations flag.

The Grange purchased the required materials and the women, with Mrs. Arthur Sundstrom, Mrs. Fritz Bjurman and Mrs. William Carroll in charge, set to work with the assistance of the Home Economics club.

The flag-making was Project No. 2 of the Grange in a national community service contest. The town hall construction was No. 1 and the women felt they wanted to contribute something themselves.

In submitting the project in the national contest the Grange reports proudly:

"The workmanship of this flag is of excellent quality, and we are proud to have this emblem of the efforts which are being put forth toward procuring and maintaining world peace."

The flag will hang in the new BaBy de Noc community hall at Stonington.

BAY SHORE VIEW—The new community hall at Stonington is located high on the bluff overlooking Little Bay de Noc, the same spot where the old hall stood.

We recall a Grange meeting and dance at the old hall a few years ago, attended by just about everyone in the community. It was a family dance, and tall grandsons whirled agile grandmothers and the floor to the strains of the polka and the waltz.

Now the old hall is gone but the spirit of the people is the same—and it will make the newer and bigger hall the same happy center of community life.

WHAT VISITORS WANT—From the Stonington hall you can see the cities of Escanaba and Gladstone in the distance, with the ore docks rising large along the shore.

It has been our conviction of many years that visitors to Delta county would like to tour the Stonington and Garden peninsula shores and other spots in the county—if they could be encouraged to leave the main highways.

This opinion is confirmed by Clarence Moreau, president of the Delta County Tourist Council, who last year placed in the Delta guide booklet a section on county tours and found the tourist response good.

THE COUNTY PARKS—For the pleasure of Delta's residents as well as visitors the county parks must be further improved, and to this end the county board of supervisors is making more generous appropriations from county funds.

The county park maintenance budget this year was \$2,000 and practically all of it was expended on Pioneer Trail, the largest county park. The work was done by the Delta county road commission.

A. T. Wilcox, East Lansing, assistant professor of park management, Michigan State college, writes to say he has an apology to offer the people of Delta county.

In the past he has taken his touring MSC parks and forestry students to Pioneer Trail to show them "a horrible example of park maintenance." Improvements this year will make him look elsewhere for such an example.

THE BEAUTIFUL PLACE — "I was very happily pleased when I drove into the park on our way to Escanaba and to see its present good condition," Wilcox writes.

"Gone are the dilapidated picnic fireplaces, the half-broken tables that once cluttered the magnificent grove of red pines. In fact the place is beautiful."

Wilcox also had a kind word to say for Escanaba's Ludington Park.

"Your bath house is one of the finest of its kind. The city is to be congratulated. When the entire lake front park area is developed Escanaba will have one of the choicest lakeside parks in the country."

Take My Word For It . . . Frank Colby Jr.

SATURDAY POTPOURRI

Beverly Hills: Please give us the correct pronunciation of the word "aunt."—Four Bankamericans.

A. The pronunciation which strongly prevails in all levels of American speech is: ant (flat "a"). The pronunciation "ahnt" is heard natively in the speech of a mere handful of New Englanders and Virginians. I do not recommend it.

Chowchilla: Recently I was corrected for using the words "a young youth." Was I wrong?—W. B.

A. Well, of course, a youth is "young," or he couldn't be called a youth. Better: A young boy; or, a youth.

Dumas: We will greatly appreciate your advising us the correct pronunciation of the Florida city, Miami.—H. W.

A. The name Miami was original an Indian tribal name, and is generally believed to mean "mother."

In best usage the first syllable is exactly like the word "my," and the second syllable rhymes with "ham," thus: my-AM-ee.

Oakland: Please pronounce and translate the phrase, Erin Go Brath.—J. G. M.

A. This is the Irish war cry; it means "Ireland forever (doomsday)!" Erin is pronounced either: AIR-in, or; EAR-in; the "o" of "go" is like the "u" of "urn, burn."

In "Brath" the "th" is silent: AIR-in gu BRAW.

Port Hueneume: We are trying to think of the photographic term used to designate a picture which is composed of several different pictures imposed on a single background, such as Bill Stern uses to introduce his movie sports shorts: his picture is in the center, and all around are pictures of horse racing, water skiing, baseball, golf, tennis etc. Can you help us?—Mrs. M. V.

A. The word you want is montage pronounced: mon-TAHZM.

'Girl Scouts, Growing Force For Freedom'

By LAURA HADDOCK

Staff Writer Of The Christian Science Monitor
BOSTON, Mass. — Among the many influences that make American teen-age girls so fine is the Girl Scouts, an activity most of us Americans take for granted because it has been with us as long as most of us can remember.

American life without Girl Scout troops for our daughters to join is something we don't even contemplate any more, and yet it is surprising how few of us could talk with any degree of accuracy about what Girl Scouting really involves.

Today in Boston the tremendous adult organization that keeps the Girl Scout troops in operation meets to open its 31st annual convention, and to discuss problems that effect so many of us in so many ways. The theme is "Girl Scouts, a Growing Force for Freedom."

Force For Freedom

This force for freedom which workers in Girl Scouting thoroughly believe is a big part of their stock in trade, consists in the effort to train little girls and older girls to be courteous, to think of others first, to behave well at home and in the community, to keep house with some skill, to take care of children with at least a degree of know-how, and in general to be what the world looks for in young American womanhood.

To accomplish a task of this breadth and magnitude means many things. It means the operation of Brownie troops for the very smallest girls, the seven-year-olds to 12. It means going on with genuinely worth-while and interesting programs of work and play to retain the interest and vigorous cooperation of the teen ager. It means planning for all this, financing all this, and providing leadership for it all. This leadership, by the way, is

one of the most pressing problems, not only this year but apparently year by year, to face the Girl Scout managerial organization.

The Girl Scouts always need new leaders, or at any rate more leaders. There are always, and as far as we know in all sections of the country, groups of girls eager to become a Scout troop but not able to do so because there is no adult woman available to lead them.

Perhaps this shortage of leaders ought to surprise no one, since the leading of a Scout troop is no puny task, requiring a kind of devotion that frets not when the telephone rings at any hour of day or night with a demand for a decision or a solution of some problem or the answer to some Scout's eager question.

But Scout authorities are convinced that there are thousands of women in this country beautifully equipped by nature and inclination to work with girls in this way, as well as blessed with plenty of time to do it, but who have just never thought of the idea. Their constant effort is to reach these women with the facts, to show them the great need that exists, and may be even to convey to them a hint of the rich human rewards there are in the work.

World Tensions

World tensions are engaging the concern of most of us these days and the Girl Scout organization is no exception. From the national executive director, Miss Dorothy C. Stratton, and the national president, Mrs. C. Vaughn Ferguson, on down the officials are working hard to see that the activities of the Girl Scouts help girls of today in three avenues: achievement of security, of usefulness, and of accomplishment.

In Girl Scouting, they point out, a girl is part of a group. She has friends whose interests and aims are similar to hers. She has the companionship and friendly guidance of adult leaders. She "belongs." Thus she is aided toward a needed sense of security.

Proficiency Attained

A Girl Scout has an opportunity to contribute to the happiness and well-being of others, to acquire skills and knowledge through which she can be of valuable service to her family, her community, her country, her world. Thus she gains the awareness of being useful.

Girl Scouts become proficient in activities like homemaking, wild-life conservation, camping, dramatics, handicrafts, and many others, that help develop creativeness and resourcefulness throughout the girl's formative youth. And thus Girl Scouting helps her to that sense of real accomplishment that is so necessary a part of growing up.

The Girl Scouts of America, best of all, its friends point out, is a voluntary organization and is truly democracy in action. Within its bounds, 8,000 well-intentioned people are coming this week to Boston from tremendous distances in some cases to examine, evaluate, and report on what they have done in the past, and to plan for the future.

Not the least important subject to be dealt with in this great national convention is the part Girl Scouts will play in civil defense. Boston and the world will watch with interest the progress of this event.

THOSE IN UNIFORM

Sergeant Kenneth G. Peterson, of Escanaba, Mich., presently serving at Camp Youngmans, Japan, is soon to return to the United States for reassignment.

Sgt. Peterson, son of Mrs. Eva Peterson of 1307 S. 23rd street, Escanaba, Mich., served in Korea with the 31st Infantry Regiment of the 7th Division. He received the Korean Medal while with that organization.

A veteran of both Korea and World War II, Sgt. Peterson is presently a member of the 8019th Composite Service Company, at Camp Youngmans in Japan Logistics Command's Northern Command.

Luce County Fall Harvest Show At McMillan Tuesday

MCMILLAN—The Luce County Fall Harvest Show will be held in the Columbus Township hall at McMillan Tuesday evening, October 23. Officers and directors are Oscar R. Musgrave, president; Albert J. Mainville, vice president; D. J. Wood, treasurer; Karl Larson, secretary. Directors include Walter Richards, Wesley Mark, Blaine Pentland, Denzil Hetrick, Harry Craig, Francis Pelletier and Thomas Watson.

The Fall Harvest Show is designed to promote and continue interest among farmers of Luce county in better cultural practices which influence the yield and quality of crops, to bring about a better understanding between farmers and businessmen and their mutual problems, to develop certified seed growing in the county and to promote and encourage 4-H club work.

The festival is a non-profit organization of the people of Luce county and its purpose is to enable the individual to see the results of hard work and good management in the production of farm produce.

The program is as follows: 6:30, supper served by members of the McMillan Women's Society of Christian Service; 8:00 meeting called to order by President Oscar Musgrave; 8:15, announcement of high yields; 8:30, comments by William Cargo, crops and soils specialist; 9, parade of Queen candidates; 9:15 showing of slides, and remarks by the Rev. John Brodie; 9:30, announcement of Queen contest winner.

Judging will be done by a competent representative of the crops department of Michigan State College. Points considered by the judge will be truthness to type, uniformity of sample, freedom from disease and freedom from injury. No entry fee will be charged. All exhibits must be received by 2 p. m. Tuesday, October 23. All worthy potato exhibits will be entered in the U. P. Potato Show at Marquette and become the property of the show if not removed before 11 a. m. Wednesday, Oct. 24. All exhibits must be grown by the exhibitor. Entries are open to any farmer or 4-H club member in Luce County.

Ruark Says:

Glamor Of Steam Engine Non-Existent On Diesel

By ROBERT C. RUARK

NEW YORK—I realized a life-long ambition the other day—to play engineer on a fast train—and must report that my heart is broken. The Erie people put me aboard a streamlined diesel job, on a 133-car haul from Port Jervis to Jersey City, and it was about as exciting as taking a taxi.

A railroad engineer, it always seemed to me, had more glamor than a cowboy or a sea cap'n or a baseball player or a tough detective or an airline pilot. I am an old Casey Jones admirer from 'way back, and I used to stand at the crossings on the off-chance the engineer might wave at me and give me a modicum of dignity for the day.

The sound of a train in the night always has been the most stimulating of all sensory impacts. When I heard a train go, "weeee-ooooohh! I wanted to cry, run away or burn down the house, just because I was so excited. The chuffing of an old steam-engine job, the clacking wheels, and the smell of train smoke rank topmost amongst my boyhood souvenirs.

No More Cinder-Throwers

But the general dieselization of our train transport has wrecked the whole dream for me. I know all the answers—diesel is cheaper, stronger, faster, smoother, and the old steam engine is doomed to be a blood brother to the great auk in the extinction files. I think my Erie friends have some 400-odd oil burners as opposed to 100-plus steamers, and one of these days I suppose there just won't be any more cinder-throwers working on

the railroads.

But a diesel, despite all its many virtues, has a whistle that sounds like a ship. It sure doesn't huff and puff and chuff like a train. It sneaks along as smoothly as a new Cadillac. It ain't a train at all, actually, it is a hybrid of boat and auto, and I resent it.

The engineer and the fireman don't resent it, though. The engineer sits on a soft chair in an air-conditioned cab, with an ice-box up forward and a glove compartment in which to keep the gloves he doesn't need any more. He has less than a half-dozen cranks and gadgets to worry about, and so help me, he wears a white collar to work, so does the fireman.

There is radio telephone, of course, so there is much conversation with the chief terminal, and a passing train will ring up to swap a word or so to the effect that a freight car's slip is showing. There is no smoke, no cinders, none of that wonderful old pungent smell of coal.

No Greasy Fireman

We were whipping along, at times, at a clean 60 miles an hour, and there was no sensation of speed. Nobody was yanking at any throttles, or riding along with his head sticking out the window, and the fireman, as I said, was not black, or greasy, like he used to be when the old 97 got its lumps that historic day. Once in a while the engineer pulled the whistle, which said, "beep-beep," instead of, "weeee-ooooh," or twisted a gimmick, but mostly he

Garden

Bridge Party

GARDEN—Mrs. Ulysses Maynard entertained Tuesday night for the members of her bridge club and served a tasty lunch following play in which Mrs. Charles Gauthier received prizes for high score and 80 honors, Mrs. George Farley, low score and Mrs. Joe Farley, deuce.

Grange Meeting

Grange members met at the

smoked cigarettes and worried about his income tax. The fireman had a couple or three dials to look at, and he and the engineer swapped signals some, but the glamor was gone.

It seems to me that there is little room for us perpetual juveniles to yearn in any more. Cowboys have airplanes. Aviators are no longer dashing adventurers, but cropped-haired young men who fly according to radio and beacons and radar and iron mikes. Sea cap'ns have radar and loran and the old art of sight taking and shooting the stars is more funful luxury than necessity.

I don't believe in Santa Claus any longer, cops seem to be more than average crooks, athletes allow themselves to be fixed, and they have taken most of the thrill out of trains. I spent 30-some years looking forward to being an engineer, and I didn't even get a cinder in my eye. What this country needs is new horizons for the young to dream about. Bring back the covered wagon, I say, and the sailing ship. Then we will eventually get around to laying a few rails—not the plastic ones they are considering now—and maybe someday we will invent the airplane, and not for cowboys, either. Cowboys should oughta stick to horses, like in the rodeo at Madison Square Garden.

Kate's Bay grange hall Tuesday night and re-elected their officers: Rufus Spaulding, master; Mrs. Louis Farley, lecturer; and secretary-treasurer, Paul Guertin. Games and dancing were enjoyed followed by a chicken supper. Mr. and Mrs. Alonzo Spaulding of Escanaba were guests.

Guild Meeting

Mrs. Paul Lamkey entertained the Women's Fellowship of the Congregational church Wednesday evening, Mrs. Nora Lester will be the next hostess Wednesday evening, November 7.

Briefs

Mrs. George Farley, Mrs. Edward Guertin Jr., Mrs. Howard Pelletier, Mrs. George Boudreau Jr. and Mrs. John Guertin served on the committee for the party at Marygrove Wednesday night. Mrs. Paul Guertin's name was omitted from last week's committee.

Mrs. Herbert Foote, Mrs. Earl Rost and Mrs. Robert Lester, sr., were visitors at the Henry Gardner and Gerard Bernier homes in Manistique Tuesday.

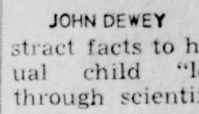

Miss Grace Boudreau of Indianapolis, Ind., came here Wednesday to visit relatives.

Mrs. Lulu Clement was taken to the Schoolcraft Memorial hospital Monday as a medical patient. Mr. and Mrs. Herman Hateman

TODAY'S BIRTHDAY

By AP Newsfeatures

JOHN DEWEY, born Oct. 20, 1859 at Burlington, Vt., son of a grocer. Dean of American philosophers and recognized as the father of progressive education. Dr. Dewey is credited with changing educational thinking. He turned abstract facts to helping the individual child "learn by doing" through scientific inquiry.

and three sons of Powers spent Sunday at the Alfred LaVallee home.

Mrs. Jack Capello of Detroit is visiting her mother, Mrs. Edward Guertin, sr.

Mr. and Mrs. Frank Marshek of Manitowoc, Wis., Mr. and Mrs. Hale Newcomb and children, Bonnie and Karen, were weekend guests of Mrs. Newcomb's aunt, Mrs. Peter Glusiano.

Mr. and Mrs. I. R. Nelson returned home Monday evening from a week's visit at New Baltimore, Mich. with their son, Captain Douglas Nelson and family.

Mr. and Mrs. Robert Bergstrom had guests from Chicago, Mr. and Mrs. Oscar Nelson, Mrs. Nelson the former Ruth Dahl, who is a sister of Mrs. Bergstrom, and Mrs. Hanna Tillberg, a cousin of Mr. Bergstrom.

Mother Gets Trapped On Roof Fixing TV

ROSEMEAD, Calif.—(AP)—Mrs. Vicky Joseph, 23, is going to call the repair man next time her television set gets fuzzy.

The young mother climbed to her roof, fixed the TV antenna and then found that she couldn't get down.

After three hours of roof sitting Mrs. Joseph finally convinced her three-year-old daughter, Lydia, that "mommy isn't playing," and the youngster called for help.

59 Years of Steady Service

What did you do when these stories broke?

Record Snow Buries City. You asked: How deep is it? Traffic stopped? How will I get to work? Other places snowed in too? How bad are the phones hit? Anybody get frozen?

Leopard Escapes. You asked: What zoo? How did he get out? Anybody hurt? How will they try to catch him? What are folks in the neighborhood doing?

Basketball Players Admit Bribes. You asked: What players? What teams? What games did they throw? Who bribed them? For how much money? What action will the colleges take?

MAYBE YOU HEARD a flash report on TV or radio. But the minute you got a chance, you grabbed for your newspaper.

You knew it was the only place to get the whole story—fast. There in the paper was everything... facts you couldn't get in a hurried broadcast... facts you couldn't wait for till they appeared in magazines.

It happens day after day. Each day there are many stories that are only half-told for you—or not told at all—until you read your newspaper.

You feel like a hermit if you miss a single issue. For it always turns out that something has happened that apparently everybody knows about but you.

And everybody else feels the same way. Everybody reads the newspaper every day... though the big news for one may be an interview with Tito, and for another Hopalong Cassidy shirts for small boys.

That's why, when you have something

to sell, the newspaper is the place to reach all the people all the time.

★ ★ ★

In advertising, why deal in fractions?

Magazines reach only fractions of your market. Each one appeals to some people—not to others. No magazine is read by everyone in town who can possibly buy.

Radio and TV programs reach only fractions, too. Each one appeals to a limited audience—sport fans, homemakers, kids, etc. And how many of these can listen at the time you broadcast?

The newspaper talks to everybody in town. It's created fresh every day for everybody. All your customers read the paper—at the time they choose, for as long as they choose.

Only the newspaper is first with the most news... first with the most people, first with the most advertisers.

The newspaper is always "first with the most"

BUILD-REPAIR-REMODEL

For Better Living

The Herkimer

A Well-Planned One Story House With Many Rooms

Rooms Seven
Bedrooms Two
Closets Seven
Cubage
House 22,100 ft.
Garage 3,800
Dimensions
Overall 63'x26'

There's plenty of closet space in the rectangular entry hall, for large closets line both the right and left walls. Hanging up guests' wraps, and storing your family's stormy weather duds, won't be any problem at all if you build "The Herkimer."

This entry hall leads directly into the 20'x13' 4" living room. Well lighted by the handsome large window in the front wall and by windows flanking the fireplace in the left wall, the living room is the most attractive room in the house. Furniture arrangement should present no difficulty in this room, and against the long unbroken back wall is an ideal location for your television set.

Built-In Cabinets
To the right, through an open archway, is the dining room. Built-in china cabinets in both front corners of the room are the answer to the housewife's ques-

tion of where to keep that beautiful china and glassware. The large paneled window in the front wall provides plenty of light for the room—makes an attractive setting for the dining room table and chair set.

A door in the right wall of the 11 foot square dining room leads to the all modern kitchen. In keeping with the latest trend in home planning, the kitchen in "The Herkimer" is placed in the front of the house. Thus, the back and more quiet, sections of the house are reserved for the sleeping quarters.

Working counters, stove and sink are arranged in an L along the left and front walls. The stove is the first in the array and the sink is placed under the double windows in the front wall. The refrigerator and an extra counter area are placed against the back wall of the room. You'll find the broom closet, located between the refrigerator and the left wall, useful for a number of storage purposes.

Although the kitchen is not very large—it measures but 11' x 10'—it still has room for a very pleasant little breakfast nook, located in the three-windowed bay in the right wall. Well lighted and ventilated, the breakfast

nook should help to get the family off to a cheerful start every morning.

Connected to the kitchen by a doorway, the laundry or utility room measures 11' 6" x 10' and provides protected entrance to the garage. A well lighted room with two windows in its back wall and another in the front wall, the laundry has doors leading both to the front and back yards.

The garage itself measures 20'

x 12' and has a special tool compartment as well as a separate storage room. There is a window in the left wall of the garage, one in the back wall and a smaller window that provides light for the tool storage section.

Located as they are in the back of the house, the bedrooms in "The Herkimer" are connected by a central hallway. The bedroom that is furthest to the right is 13' x 10' in dimensions and as a pleasant, well-ventilated room with a window in the back wall and another in the right wall. The large closet in the left wall will provide more than ample storage space.

Thoroughly modern, the bath contains a tub and a shower and

has one window in the back wall. The large linen closet, just beside the bath, is conveniently near to the bedrooms.

With a four windowed bay in its back wall, the center bedroom or den is very attractive measuring 10' x 7', this room also has a large closet and could serve with equal ease as a bedroom, guest room or den.

Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

For plan prices, write to the Home Building Editor, Dept. 15, Daily Press and enclose a self-addressed, 3 cent stamped envelope. Allow 7 to 10 days for a reply.

TIMKEN
Silent Automatic
WALL-FLAME
OIL BURNER

CONVERTS FUEL OIL TO A GAS—THEN BURNS IT WITH AMAZING ECONOMY!

Blue-hot wall-flame blankets the walls of the heating plant—gets every useful Btu of heat from every drop of fuel oil. The one and only type of automatic fuel burner that combines all the best features of oil heat with the clean-burning efficiency of gas heat. For all makes and sizes of furnaces and boilers. Ask for heating survey and operating cost estimate. No cost or obligation. We supply the facts and figures—you make the decision.

Fuel oil is converted into a gas by unique chrome-steel flame rim shown at right. Oil droplets strike glowing-hot flame rim and are instantly vaporized. Resultant mixture of oil-gas and air rises through grills... is super-heated by grills... and burns against heating plant walls with same blue color characterizing gas flame.

Patricia Hunt And Douglas Beath Will Wed Today

Miss Patricia Hunt and Douglas Beath, son of Mr. and Mrs. Philip Beath, La Grange, Illinois, former Escanaba residents, will exchange marriage vows at 5:30 this afternoon at the chapel at Northwestern University, Evanston, Illinois. The bride's parents are the C. M. Hunts of Evanston.

After a reception at the North Shore Country Club, Evanston, the couple will leave on a wedding trip. They will make their home in Des Moines, Iowa.

The bride graduated from Northwestern University where she was affiliated with the Alpha Phi sorority. Mr. Beath is a University of Michigan graduate and his fraternity is Alpha Delta Phi. He is a grandnephew of Mrs. A. E. Ellsworth, Mrs. T. J. Daley and Mrs. Nancy Thomas of this city.

Altar Society Will Meet Wednesday

St. Joseph's Altar society will hold its regular monthly meeting Wednesday evening, Oct. 24, at 8 o'clock in the parish hall.

A social hour will follow the business session.

Refreshments will be served with Mrs. Paul Rademacher and Mrs. Eli Sayen in charge assisted by the following committee: Mrs. William Perron, Mrs. August Plant, Mrs. Margaret Peterson, Mrs. Clement Puissant, Mrs. Joseph Patrick, Mrs. M. E. Powers, Mrs. Otto Perket, Mrs. Ida Pepin, Mrs. Anna Rademacher, Mrs. Laura Raymond, Mrs. Mary Rowan, Mrs. Catherine Reiss, Mrs. Mary Schemmel, Mrs. Elmer Stacey, Mrs. Theresa Semone, Mrs. William Savageau, Mrs. John Stockemer, Mrs. Gerald Snyder, and Mrs. Catherine Shanahan.

Men Of Bethany Meeting Monday

The Brotherhood of Bethany Lutheran church will meet in the chapel at North Escanaba Monday evening, October 22, at 7:30. Guest speaker will be Rev. Joseph Dickson, rector of St. Stephen's Episcopal church. The Rev. Gustav Lund is program chairman. Art Buckland is chairman of the evening, assisted by Ed Carlson, Nels Swanson, Myron Carlson, Eric Frederickson and Carl Harbath.

Social-Club

Guill Rummage Sale
St. Stephen's Guild will sponsor a rummage sale Friday, October 26, in the church basement. The sale will open at one o'clock.

Guill Sponsors Dinner
St. Thomas Guild is sponsoring a chicken dinner Sunday evening at St. Thomas parish hall, 1820 Ninth avenue north. Serving will be from 5 to 8. The public is invited. The dinner has been arranged as a benefit for the church.

Son First Born Of Warren Durhams

Mr. and Mrs. Warren Durham of 2600 Rascher street, Chicago, are the parents of a son, their first child, born Friday morning, October 19, at Wesley Memorial hospital, Chicago. The baby weighed eight and one-half pounds. Mrs. Durham is the former Marilyn Ranguette, daughter of Mrs. Lucille Ranguette of Chicago and William F. Ranguette of this city. The new arrival is the first grandchild of Mr. and Mrs. Peter C. Dube, 608 South 11th street.

Mary Witham Is Sorority Pledge

Mary Witham, student at Lawrence college, Appleton, Wis., recently was pledged to Sigma Alpha Iota sorority. Mary is a daughter of Mr. and Mrs. Nyal H. Witham of 320 South 11th street.

Social Situations

You walk into the waiting room of an office and there is a receptionist on duty at a desk.

WRONG: Be seated and wait for her to ask what you want.

RIGHT: Go up to the desk and give her your name and tell her the name of the person you wish to see, mentioning that you have an appointment, if you do have one.

Baking may be successfully done on two shelves of your oven at the same time, provided you stagger the pans so that no upper pan is directly above a lower one.

THE FORMER Carrol Corriveau of Chicago, daughter of Mr. and Mrs. Edna L. Corriveau of Powers and her husband, John M. Renshaw, who were recently married in Kokomo, Indiana, are pictured at the reception following the wedding service. The newlyweds are living in Kokomo.

Rev. David Buzza Aid Speaker Tuesday

The Rev. David Buzza, pastor of the First Presbyterian church of Menominee, will speak on "Where We Stand on Economics" at the regular meeting of the Ladies' Aid of the First Presbyterian church here Tuesday afternoon, October 23, at 2:30 in the Guild hall. A good attendance is urged to hear the guest speaker and to vote on the woman's organization plans. Hostesses are Mrs. Elsie Hansen, Mrs. Ed Packenham, Mrs. Arnold Nelson and Mrs. Tom Irish.

Perkins

Baby Shower
PERKINS — Mrs. Charles Brunette of Gladstone was honored at a pink and blue shower held Sunday evening at the home of her parents, Mr. and Mrs. Alfred Krouth. Guests were Mrs. Manley Rogers, Mrs. Ed Selander, Mrs. N. J. Sharkey, Mrs. Philip Williams, Mrs. Fred Hackenbrush, Mrs. Albert Beauchamp, Mrs. Alex LaChance, Mrs. Ed Trombley and Mrs. Francis Gudner of Perkins. Mrs. Clyde Cole of Gladstone, Mrs. Robert Trombley of Escanaba, Mrs. Neil Bailey of Gwinn and Mrs. John Schroeder of Gladstone. Mrs. Krouth and Mrs. Rogers were hostesses. A party lunch was served. Mrs. Brunette was presented with many lovely gifts. Mrs. Albert Beauchamp received the guest award.

Wallace's Party
Wallace Beauchamp celebrated his 5th birthday anniversary Sunday afternoon at the home of his parents, Mr. and Mrs. Russell Beauchamp. A birthday cake centered the table for the party lunch. Wallace received many nice gifts. At his party were Lois Beauchamp, Tommy, Barbara, Joyce and David Beauchamp, Lorraine Beauchamp, Mrs. Ronald Beauchamp and the grandmother, Mrs. Pamphil Depuydt.

At Heartbreak Hill
The parents of Pvt. John Mosier and Pvt. Norbert Beauchamp have been advised that the two men took part in the recent action on Heartbreak Hill in Korea.

Home Economics Club
PERKINS—Members of the St. Nicholas Home Economics club held their first meeting of the fall at the home of Mrs. Wilfred Beauchamp recently. Attending were Mrs. Jule Depuydt, Mrs. Peter Vermote, Mrs. George Vandebusch, Mrs. Fred Seger, Mrs. Gerard Van Damme, Mrs. Leslie Hermanson and Mrs. Peter Bruntjens. Mrs. Seger and Mrs. Vandebusch were project leaders. The next meeting will be held at the home of Mrs. Peter Vermote October 30.

Bake Sale Planned
The Perkins American Legion auxiliary will sponsor a bake sale at Norden's grocery Friday October 26, at 1:30. Mrs. Ernest Carlson is chairman.

Missionary Society
The Perkins Missionary society will meet at Bethany Lutheran church Thursday evening, October 25, at 8. Members of the Rapid River society will be guests. A pot luck lunch will be served.

Royal Neighbors
The Royal Neighbors society will hold its monthly meeting Thursday afternoon October 25, at the home of Mrs. George Quirk.

Personals

Wells

Young Peoples Meeting
WELLS—The United Nations young people met at the home of Mrs. Andrew Anderson, Soo Hill, Wednesday evening. Games were played and plans were made for a Halloween party to be held at the home of Mrs. Louis Beuhler, Soo Hill. Each member may invite a guest. Mrs. Beuhler is superintendent of the United Nations young people. Lunch was served at the close of the evening. Those present were Roy and Ardes Cartwright, Delores and Carolina Anderson, Betty Whitney, Mary Mazure, Don Olson and Robert Hammerberg.

St. Anthony's Guild
St. Anthony's Guild of Wells met Wednesday evening at the township hall. Movies were shown by Father Ronald Bassett of Garden, one on the Christopher movement with Hollywood stars participating, and the other, "All This and More", a film of a three day retreat at Marygrove with a cast of people of the community. Mrs. Vernon White gave a short talk on the Schools of Religion and urged all members to attend. The school for people of Wells and surrounding communities is held Friday evenings at St. Thomas church. The date of St. Anthony's annual venison supper was set for Sunday, December 2, at the K-C hall with Mrs. Charles Fletcher, chairman. Lunch was served by Mrs. Julian VanAcker, Mrs. Clara St. Thomas and Mrs. Alfred Anderson. The next meeting will be held November 22.

Briefs
Guests last weekend at the John Clark home were Mrs. Charles Walman, Mr. and Mrs. Peter Hebert and Mr. and Mrs. Roy Walman and daughters, Judy and Carol of Hancock and the Tom Beaudry family of Stonington.

Mrs. Emil Juneau of St. Jacques is a medical patient at St. Francis hospital in Escanaba.

Mr. and Mrs. Will Marceau of Flint and Mrs. Anna Marlowe of Fairgrove visited this week at the Nick Gemuenden home.

Mr. and Mrs. Henry Hebert have returned from a trip to Norfolk, Va., where they visited Lt. and Mrs. J. K. Boles and their family.

Mr. and Mrs. Will Gemuenden and daughters and Miss Mary Gemuenden have returned to Menominee following a visit here with Mr. and Mrs. Nick Gemuenden.

Harry Lindberg of Chicago is visiting here with Mr. and Mrs. Allen Mercier.

Ed Sargent of Pontiac spent Thursday at the Henry Sargent home.

Marquand, Melville Goodwin, USA
Marshall, The Viking
Moragan, A Breeze at Morning
Prouty, Fabia
Thirkell, The Duke's Daughter
Van Every, The Captive Witch

LUDINGTON BUY-LINES by Sue Donimus

KNOW why they call a ship she? Because she always keeps a man on the lookout! Hope you've been on the look out for the movie that hits the Michigan Theater this Sunday. Parent's Mag. gives "Captain Horatio Hornblower" a double plus rating along with loads of other reviewers! Gregory Peck plays the dashing sea captain who's been made famous by Saturday Evening Post stories. You've never seen anything like these action scenes of sea battles in technicolor. Lovely Virginia Mayo is the lassie who finds herself aboard Hornblower's ship in what is definitely a man's world—lucky gal! Chart your course for a trip to the Michigan next week—for sure!

YOU know what happens to the banana that leaves the bunch—it gets skinned! So I suggest you stick with the crowd that's heading to the Photo Art Shop for National Picture Month. Unusual floral and bird prints in pairs that are priced as low as \$3.50. Dark or ivory frames—green or brown mats surround the charming floral. No frame up at the Photo Art!

THE latest definition of children: Whys guys! And Mama knows the answers when she buys winter clothes for them at Wards. Luxurious alpaca lined storm coats, sizes 4 to 6x, only \$18.98; 7 to 14, \$24.98. Navy, red, green and gray with mouton collars and weather resistant finish. Very special are the wool snow suits for the small fry, 3 to 6x. In two colors of wool with warm flannel lining, lined pants and hoods—regular price was \$10.98—but now just \$9.87.

HE! I just married again—took a new lease on life! But this time I intend to stay out of the dog house but good. All those little repair jobs around the house that women think up—I'm taking them to Ted's Fix-it Shop. No more of this putting off and letting stuff lie around until it never does get fixed. Ted's Fix-it Shop makes really doggy repairs on all broken items—electrical fixtures and furniture!

WHEN an irate customer looked at the proofs of her pictures and asked, "Do I look that bad?" the clever photographer said, "The answer, madam, is in the negative." Nothing but cheerful customers walk out of Rid-ing's Studio in Escanaba! It's time to be planning those Christmas photographs you want to send as gifts. What spreads that Christmas cheer better than pictures of children or grandchildren, sweethearts or wives! Make your appointment soon for that really super photography at Rid-ing's!

THE menu in a Chicago restaurant read: "Barely soup." Believe me when I say that any soup, barley or tomato, and any stew or roast gets a lift right out of this world when you start using the new condiments found at Eden's Gift Shop. Packaged in delightful gift cartons they are priced from \$1.25 to \$3.95. One set nests in a hand woven hanging basket—another in a peasant wooden rack. These herbs and spices make a perfect gift or an unusual bridge prize. And remember that Franciscan dinnerware, so highly praised by the Women's Club speaker last Wednesday—is found at Eden's, too!

"PLEASE call my guests' names as they enter," the hostess instructed the butler.—So he called them every name he could think of!—Now if you'd like to really make an entrance, I suggest you cover it with an Alumi-Shield Doorhood! Nothing makes an entrance more inviting or practical than these unique aluminum awnings. You'll find them a real protection from rain and snow, and you'll also find that they add to the realty value of your home far more than their actual cost. In Escanaba, Erickson Millwork will be glad to give you estimates on these rust proof, permanently installed doorhoods. And the color combinations are entrancing!

DON'T let those criss-cross curtains ruffle you! The Curtain Clinic doesn't find them a bit annoying! When housecleaning finds you up to your eyes in irritations, give the curtain job to these professionals who'll turn them out crisp and sparkling clean. Reasonable rates; plain panels; 60c a pr.; venetian blinds 75c. Curtains may cover a pane in the window, but they give one in the wash tub! Sheer nonsense to do them yourself!

PINS are hard to find—they're pointed in one direction and headed in another. But you could even find a needle in a haystack if you owned one of the handsome new filing cases I saw at the Office Service Co. It was used in beautiful knotty pine, but also comes in a mahogany finish. This unusual cabinet is the Steelmaster Do-All-In-One. It's the perfect filing system for the home as well as office. There are large and small filing drawers, a small safe, and storage shelves included. There's a double file line into OSCO to view the best single file I know!

Cub Scouts To Meet Monday

Family Style Supper At GHS Gymnasium

Gladstone's Cub Scouts are having their annual pack meeting Monday evening at the high school gymnasium and a family style potluck supper at 6 will open the gathering.

The pack will receive its charter with Scout Executive Andy Houston presenting it to J. Donald Grenfell, Jack Shiner, Cubmaster, and the various den mothers will receive their commissions. "Strong for America" and "Safety" are the two themes for the month and each den has prepared some portion of the evening's program emphasizing some phase of one of the themes.

The program is to open with the flag ceremony by Den 7. Andy Houston will speak and show a movie designed to teach parents manners in which they may help their sons in Cubbing. Advancement and induction ceremonies are to be conducted by Jim Rat-tray. Proper respect for the flag will be the theme of the skit by Den 4. Den 1 will explain the meaning of the flag. Den 2 is to demonstrate simple First Aid, Den 6 Hazards Around the Home and Den 5, Fire Hazards in the House. Recitation of the Cub Scout prayer by the Cubs will bring the meeting to a close.

Buckeye P. T. A. Sponsors Party

The PTA of the Buckeye school will hold a card party on Monday evening at the Buckeye school at 8 o'clock. Bridge, canasta, five hundred and smear will be played. The general public is invited to attend.

The proceeds from this event will go towards the Halloween party the PTA is sponsoring for the school children.

The committee is composed of Mrs. Hilding Peterson, chairman and assisting her are the Mmes., LeRoy Pettit, Henry Boivin, Wilfred Blair, Joseph Gasperich, Joseph Chapla and Mike Stemas.

Services In Bethel Free Church To Be In Lower Auditorium

All services Sunday in Bethel Free church are to be held in the lower auditorium, it is announced by Rev. Oscar Leander, due to repairs now being made on the church heating system.

Berlin Floor Map Being Determined

BERLIN — (AP) — The Russian sector of Berlin is drilling a lot of holes in the ground these days to find out how far is down.

Faced with the urgent need to rebuild dwellings on the site of twisted bomb ruins, squadrons of workmen have been assigned to gather the data for a "floor map" of the downtown area.

The map is designed to show how much weight an area can handle. It is a dire requirement in the central part of Berlin because the city is literally sitting on sand.

Church Services

St. Paul's Lutheran—Divine service, 9. Sunday school, 10—Theophil Hoffmann, pastor.

Mission Covenant—Sunday school, 10. Morning worship, 11. Chorus will sing. Evening service at 7:30.

Memorial Methodist—Sunday Church school, 9:30. Nursery school, 10:45. Divine worship, 10:45. Youth Fellowship at parsonage, 7. —Glenn E. L. Kjellberg, pastor.

Bethel Ev. Free—Sunday school at 9:45. Classes for all ages. Morning worship 10:45. Sermon topic: "Entrance Into God's Provision." Junior church, at 10:45. Young People's meeting, 6:30. Evangelistic service, 5:30. Sermon topic: "The Steps of a Re-Made Life."

Reorganized Church of Jesus Christ of Latter Day Saints—Church school, 10. Morning worship, 11. Evening service, 7:30. Preaching by Elder Evan Fry, Independence, Mo.—Elder Rex Stowe, pastor.

First Lutheran—Nursery school at 10. Morning worship at 10. Brotherhood Sunday. Men's choir to sing. Men of Brotherhood and their sons or adopted sons will be honored guests at the service. League rally at Stephenson, 3. CST.—Rev. Clifford Peterson, pastor.

All Saints Catholic—Masses at 8 and 10. Daily mass at 8. Novena services every Friday evening at 7:15. Confessions Saturday evening 7 to 8:30.—Rev. Fr. Matt La-Violette, pastor.

Trinity Episcopal—Morning Prayer and sermon at 9 a. m. Church school will begin at 10.—The Rev. Joseph S. Dickson, rector.

Social Study Club
Mrs. E. A. D'Amour will be hostess to the members of the Study Club on Monday afternoon at 2:30 o'clock at her home, 1103 Michigan avenue. Mrs. H. G. Wescott is to report on the book, "Kon-Tiki" by Thor Heyerdahl.

North Delta 4-H Club
The regular meeting of the North Delta 4-H club was held Tuesday, October 16. Guests were Mr. and Mrs. Fred Bernhardt. Mr. Bernhardt talked about the coming 4-H bake sale and the winter projects. Lunch and games were enjoyed.

Work meetings are to be held every Wednesday at 7:30, with the next meeting on October 24. Leaders will be Mrs. Albert Whybrew and Mrs. Bessie Smith.

James T. Jones Golf Club Head

Annual Meeting Held Thursday Evening

James T. Jones was elected president of the Gladstone Golf club for 1957 at the annual meeting held Thursday evening at the City Hall. He will succeed William S. Skellenger who is completing his third year as head of the club.

G. E. Behlin was chosen as vice president and Charles Hoffos was named secretary-treasurer. W. S. Skellenger, Fred Siebert and Lewis N. Empson were named to the board of directors for 3-year terms and Dr. B. H. Skellenger was named for a 2-year term to fill a vacancy caused by the death of Seymour Lewis.

A change in the manner of election for 1957 officers was proposed by motion. This calls for the general membership to vote by mail ballot for directors after which the directors would select the officers with the stipulation that the president and vice president must be chosen from members of the board.

The annual financial report as of Oct. 1 presented by Treasurer Hoffos showed the club in the black. A final report to be made after the close of the year is to be mailed to each member.

A vote of thanks was given by the membership to the retiring president for his loyal and able work as head of the club and Mr. Skellenger was heard in an appropriate response. The incoming president, who has been serving as head of the greens committee, also spoke briefly telling of some

Gulliver

Briefs

GULLIVER—Mr. and Mrs. H. Lauridsen of Chicago are guests of Mrs. Irene Trippensee for the week. Mrs. Trippensee will accompany them on their return.

William Toner left Friday for an indefinite stay with relatives and friends in Chicago.

Mr. and Mrs. E. Hamilton left for a two week stay with relatives and friends in Lower Michigan and Wisconsin.

Frank Nord, Wayne, Mich., spent the weekend with his mother, Mrs. John Nord. Mrs. John Bergman and Mrs. Sara MacGregor accompanied him on the return trip.

Dr. Charles Bakeman of Midland, Mich., has been a guest at the home of Mr. and Mrs. Harrison Beach.

Mr. and Mrs. Robert Goudreau are the parents of a son born at Memorial hospital October 12.

Mrs. John King of Naubinway is making her home with her daughter, Mrs. Vern Goudreau of Seul Choix Pointe.

Mrs. Olive Gross of Waukegan, Ill., spent several days visiting at the Vern Goudreau home in Seul Choix Pointe. Mr. Gross and Mrs. Goudreau are sisters.

Cpl. Willard Smith, son of Mr. and Mrs. Charles F. Smith, at present is located at Fort Benning, Georgia. Cpl. Smith spent a month's furlough at home before leaving for Georgia.

Mr. and Mrs. William Murphy and sons, Mrs. Robert Quinn and Joseph Walkowick, all of Toledo, Ohio, were guests at the home of Captain and Mrs. H. P. Murphy.

James Cameron, son of Mr. and Mrs. Frank Cameron, is a surgical patient at Memorial hospital.

C. A. LaFave is spending this week in Green Bay on business.

L. Hollandsworth, Elgin, Ill., is a guest at the home of Mr. and Mrs. H. Beach.

The Gulliver Community Planning Club will hold its next meeting Tuesday, Nov. 6, for the purpose of selecting two high school boys of proven ability and character to represent this community at the 38th annual U. P. Older Boys' Conference which will be held for the first time in Marquette Nov. 2 and 3.

Dr. Frank Slutz of Dayton, Ohio, will be the guest speaker. The fee which will cover registration, program speakers, and banquets, will be paid by the club.

J. Koeneke Dead

J. Koeneke, well known visitor in Gulliver, died Oct. 6 of a heart ailment in Chicago, where he resided. Mr. Koeneke was a nephew of the late Herman Schnuknecht and visited each summer with Mr. Schnuknecht and his daughter, Mrs. James Adamek, at the Adamek cottage. He is survived by two daughters. Burial took place in Memorial Park in Elgin, Ill.

In This Corner

With Ray Crandall

When the St. Joe Trojans engage the Niagara (Wis.) Badgers here next Friday night it will mark the first meeting of the two teams in nine years . . . The schools last met on the gridiron here in 1942 . . . They also played in 1941 . . . The game was scheduled to take the place of the Negaunee St. Paul clash which was cancelled at the request of Coach Matt Vanni because of injuries suffered to several key players.

In their first grid glimpse of a Niagara team in many years, fans will see a club that has won only one game this season . . . But the Badgers are well respected in the tough Menominee Range conference of which they are a comparatively new member . . . Niagara has lost to Kingsford 6-0, Iron Mountain 37-7, Iron River 32-12 and Stambaugh 26-6 . . . It's evident that Niagara's competition has been on the rugged side . . . Stambaugh is undefeated, Iron River has lost only to Stambaugh and Iron Mountain defeated Escanaba last week . . . The Badgers, coached this season by Jack Taylor, won their first game last Saturday, trouncing Norway 32-13 . . . An Iron Mountain sports writer told us last week Niagara's front wall is the biggest in the Range.

Escanaba harriers have won the gruelling Upper Peninsula cross country championship three times since the event was started in 1934 . . . Eskymos turned the trick in 1934, 1940 and 1950 . . . Iron Mountain has won eight titles, Menominee four and Sault Ste. Marie captured its first last Saturday.

St. Joe Halfback Pete Kutches has averaged 200 yards rushing per game in five starts for the Trojans this season . . . Marinette used 33 players in winning against West Allis Central last Saturday night, and the Marines punted only once in the game . . . The last time Sault Ste. Marie beat Menominee in football was 1942, when the Blue Devils took a 7-0 edge but last season the Maroons ran up a 73-0 score . . . Mel Holme, Minnesota's sophomore fullback from Stambaugh, has the top rushing average in the Gopher backfield . . . Mel has carried the ball 15 times for 56 yards, an average of 3.75 per trip . . . He scored one TD.

Eskymos Well Represented At Marquette Homecoming

No less than nine Escanaba area residents will be on the field this evening when the opening whistle blows for the Northern Michigan College-Michigan Tech grid game at Marquette at 7:45.

The Northern Wildcats have five former Eskymos on their 1951 grid roster, Fred Hirm of Escanaba is team trainer, Jim Nyquist is a regular tackle on the Tech squad, L. Dick Schram and Wallace Cameron will be officials.

Escanabans on the Northern team are Jack Schils, halfback;

John Beaumier, fullback; Axel Anderson, end; Raymond Cayemberg, end, and David Rademacher, center.

Schram, officiating his 22nd game of this season, will be referee, Cameron will be head linesman. Umpire will be Omer LaJeunesse of Iron Mountain.

The Homecoming game tonight is expected to draw a huge crowd and many residents of this area will attend.

Cage Rules Meeting Will Be Held Here On Saturday, Nov. 3

A regional basketball rules meeting, under the direction of Charles E. Forsythe, will be held Saturday morning, Nov. 3 at 9:30 at the Escanaba junior high school.

Forsythe, Michigan High School Athletic association director, will discuss changes in the 1951-52 rules and state association adoptions and recommendations.

Coaches and officials from this region will attend. It is one of six meetings to be held in the U. P. this fall. Others will be at Sault Ste. Marie, Ishpeming, Houghton, Wakefield and Crystal Falls.

Groza, Beard Fixers

CHICAGO — (AP) — Alex Groza and Ralph Beard, former All-America players with Kentucky's great 1948 and 1949 basketball teams, today were charged with accepting bribes to shave points in important games.

State's Attorney John S. Boyle said they will be arraigned in Cook county criminal court later today.

Assistant District Attorney Vincent A. G. O'Connor of New York City, who interrogated Groza and Beard when they were picked up at Chicago Stadium last night, said Dale Barnstable, another former member of Kentucky's team, had been arrested at Louisville.

Admit Fix
O'Connor said Barnstable was arrested last night by Assistant District Attorney William P. Sirigana of New York county and that his interrogation is still in progress.

"Beard and Groza admitted each accepting \$500 together with Barnstable to juggle points of the Kentucky-Chicago Loyola game March 14, 1949, in Madison Square Garden," O'Connor said. "The game was in the N.I.T. tournament and Loyola unexpectedly won 67-56."

Vonnie Colby Of Soo Out Of Hardscrabble Women's Open Tourney

FORT SMITH, Ark. — (AP) — Teen-ager Vonnie Colby of Sault Ste. Marie, Mich., was knocked out of the annual Hardscrabble Women's Open golf tournament yesterday by veteran, tourney star Marjorie Lindsay.

The big one is scheduled for Berkeley, Calif., where 81,000 persons will crowd into Memorial Stadium to watch California, the No. 1 team in the country in the Associated Press poll, battle its neighborhood rival, Southern California.

Heavy Favorite
The Golden Bears of Lynn "Pappy" Waldorf are rated 13½-point favorites over once beaten U.S.C. California has not lost a regular season game in the past four years, but is ineligible for the Rose Bowl, having played there last Jan. 1.

If the underdogs win, not only will the National rankings be thrown into confusion, but the Pacific Coast conference title could be settled. As of now, these are the only two teams being given consideration for the title.

Elsewhere, most of the action also is regional. In the East the Columbia-Penn game at Philadelphia could have a bearing on the Ivy league title. Penn has beaten the Lions in 11 of their last 13 meetings, but Lou Little's men will be at full strength, with punter Tony Misto set for action after being bedded with a virus infection.

Vols Face Alabama
Tennessee, the second ranked team in the nation, faces what should be a relatively easy task against Alabama in Birmingham. Before the season got under way,

downs in the first half, sweeping the Pierce ends and threading his way down the sidelines on the two long runs. Quarterback Joe Greenwood registered the fourth Bronco TD in the second half on a quarterback sneak that went 18 yards through the middle of the Pierce line.

Fifth Win
Bark River scoring was rounded out by Wayne Erickson's two placements and Greenwood's sneak for the extra points.

Coach Paul Wiinikainen praised the work of End Charbonneau on both offense and defense and lauded the efforts of Dick Shepherd and Allan Schoen on defense. Good, Cavades and LaVigne were the backfield stars for Bark River.

It was the fifth win against a single loss for the Broncos this season under new Coach Wiinikainen. It set the stage for the climatic finale next Friday afternoon against arch-rival Powers-Spaulding, one of the five undefeated teams in the Upper Peninsula.

Another big game in the South pits Georgia Tech against undefeated Auburn. Tech, the No. 5 team, will go into first place in the Southeastern conference if it comes out on top as expected.

Maryland, shooting for the national title vacated this year by Oklahoma, meets North Carolina at College Park, Md. North Carolina is a tough customer. The Tarheels have not lost a game in this series since 1926, but this one should be their downfall.

Midwest Games
In the Midwest, the best of the offerings are intra-league games in the Big 10. Ohio State plays host to Indiana, Michigan journeys to Iowa, and Wisconsin takes on Purdue.

Two of the league teams—Illinois and Northwestern—are involved in intersectional tilts, while Michigan State, a member which doesn't count in the standings until 1953, will test Penn State. Illinois tackles Washington at Seattle, and Northwestern plays host to Navy. San Francisco travels across the country to tangle with Fordham.

In the Southwest, Texas, No. 4, plays Arkansas; Texas A and M, No. 6, meets Texas Christian, and Baylor, No. 10, clashes with Texas Tech.

St. Joe Home Tonight; Escanaba At Marinette

Joe Baski KO's Gino Buonvino In First Round

NEW YORK — (AP) — "If Jersey Joe Walcott can do it, so can I," said comebacking Joe Baski today as he aimed for the heavyweight big time once more. He's 31 years old, by the records.

Manager Natey Wolfson wants Baski to meet Jimmy Rouse in Troy N. Y. next week to fill a previous commitment and then go to England for a December fight under Jack Solomons promotion.

"After that, if Joe shows he still has it, we'll be ready for Walcott, Ezzard Charles or anybody," said the happy manager. "He's got to make it this time. If he doesn't stick to his business, I'm through and so will he be."

Comebacks and rosy plans are old stuff for the strapping ex-coal miner from Kulpmont, Pa., who started off his latest campaign by flattening Pudgy Gino Buonvino in 54 seconds of the first round of a main ten in St. Nicholas arena last night.

The quick cleanup equalled the ring record for kayos of Buonvino. Lee Savold, called in as a 24th hour sub for the same Baski 3½ years ago, belted out Buonvino in the same time.

Baski, who weighed 220 to Gino's 206, has started comebackers for the last three years. After two or three bouts, his aversion for training and roadwork usually gets the better of him. In the three years, the six-foot, two-inch husky has had six fights and won them all. He beat Art Henri in his first start this year in August.

College Cage Stars Beaten By Old Pros

CHICAGO — (AP) — Bob Davies, who used to be a collegiate whiz himself, gave the 1951 college All-Stars a basketball lesson last night as the old pro of the Rochester Royals.

Davies rattled in 25 points to lead the National Basketball Association champions to a 76-70 victory over the All-Stars before 16,805 at the Chicago Stadium.

It was a ding-dong scrap, tied 13 times, before Davies' deadly shooting slowly, but surely turned the tide for the Royals.

The All-Stars were led by Kansas State's Ernie Barrett with 17 points. Mel Hitchins of Brigham Young also was a collegiate standout, bagging 14 points. Northwestern's Ray Ragels, former Big Ten scoring champion, had 12.

The All-Stars were ahead at halftime, 40-38, but after leading by six points, 53-47, midway in the third quarter, succumbed to the Davies' sparked finishing drive by the Royals.

Two U. P. Elevens Remain Undefeated

Two U. P. high school grid teams concluded their Upper Peninsula schedules undefeated and untied last night.

Menominee, defending champion, walloped Sault Ste. Marie 53-0 to wind up its Peninsula slate. The Maroons face Marinette next weekend.

Coach Willard Anderson's Stambaugh Hilltoppers edged Ishpeming 6-0 in their season finale.

SEVEN SENIORS — St. Joe seniors who will be in the limelight as the Trojans face Munising in a Homecoming game here tonight at 8 o'clock. Memorial field, are the seven gridders pictured above. Left to right are John Jungles, tackle; George Rappette, end; Bob Pepin, tackle; Ron-

ald Pepin, back; Pete Kutches, back; Bill Baker, back, and Tom Gasman, defense man. Opposition tonight will be provided by Coach Stan Whitman's Munising Mustangs of the Great Lakes conference. (Daily Press Photo)

RESERVE GAME

Escanaba reserves will take on the Marinette Bee team at Laurman field in Marinette this afternoon at 3 o'clock (Escanaba time). The Eskymo jayvees beat Iron Mountain 41-0 in their last start.

Dick Todd New Redskin Coach

WASHINGTON — (AP) — Dick Todd, onetime Texas A. and M. backfield great is today's coach of the Washington Redskins football team.

He took over last night—stepping up from backfield coach—on what looked like a caretaker basis, pending the time when heartily (Hunk) Anderson, one of Notre Dame's legends and successor to Knute Rockne as Notre Dame coach, works out contract difficulties.

Although he is working as a steel salesman in Detroit, Anderson is under contract to the Chicago Bears as a line coach. The contract does not run out until Dec. 31. Owner-Coach George Halas refused to let Anderson off the leash unless the Redskins would trade tackle Paul Lipscomb. This Redskins president George Marshall said he could not—because of league rules—and would not do.

Coaches came and went so fast at the Redskins wigwag yesterday it looked like someone had traded the tent flap for a revolving door.

Appeal Fails
Herman Ball was still coach as the day opened, although he had been on public notice from Marshall for several days that he was already the sixth Redskins coaching casualty in nine years.

Marshall talked again with Halas, and then appealed to Football Commissioner Bert Bell. The ruling still "was against Anderson."

So at dusk Redskins General Manager Dick McCann announced that Todd was stepping up. Ball, he said, would return to the job he first had with the Redskins—chief scout. Anderson, still around as his apparent, said Ball is a fine technician and would be useful as a scout.

Marines Have 16 To 13 Win Edge Over Eskymos

The Marinette Marines enter tonight's game with 16 to 13 victory edge in their grid series with the Escanaba Eskymos. The two schools first played on the gridiron back in 1895, but the series is spotted after that year with numerous lapses and intermittent starts.

The teams have been meeting annually since the 1937 season and have split in 14 games since that date.

Marinette owns the longest consecutive streak in the series, having put together seven straight wins from 1911 through 1921. Following are the results of past games:

Year	Esc.	Mar.
1898	0	26
1900	6	11
1901	6	5
1902	21	0
1903	10	0
1904	46	0
1907	18	5
1911	0	5
1915	0	19
1916	0	15
1917	0	52
1918	0	19
1919	6	34
1921	0	14
1934	26	0
1937	7	6
1938	14	0
1939	12	0
1940	8	6
1941	13	19
1942	12	0
1943	0	33
1944	12	18
1945	7	0
1946	0	26
1947	0	33
1948	27	14
1949	7	28
1950	0	39

Air Game Gives Detroit 19-13 Boston Victory

BOSTON — (AP) — A super-duper air game gave the University of Detroit football team a 19-13 victory over Boston College before 10,123 fans at Braves Field last night.

The Titans piled up three touchdowns in the second period by neat interceptions of a pair of BC passes and two long aerials of their own that paid off handsomely.

Halfback Ron Horwath sparked his Detroit team to its second victory in five starts this season.

Near the start of the second period, he intercepted a toss from Boston's Jack Mc Kinnon on the Detroit 11, and ran the ball all the way back for a touchdown. A few minutes later another pass interception by Horwath gave the Titans the ball at midfield, and they went on to score on a beautiful 30-yard heave from Denby Mc Cotter to Dick Mc Bride.

13th Straight Loss

The final Detroit score came when Mc Cotter took to the air again and Frank Domagalski leaped high in the end zone to grab the ball. Tony Barton successfully converted on the last TD.

The Boston team, which now has lost 13 straight games, came back strong in the second half, but could not quite even things up.

Halfback Joe Johnson carried the ball over for a score in the third period, and Captain Mike Roarke took a pass on the 25-yard line and ran back for the game's last marker before time ran out. Dick Zotti converted.

Detroit . . . 0 19 0 0—19
Boston College . . . 0 6 7—13

Detroit scoring: Touchdowns, Horwath, Sheldon, Domagalski, Conversion, Bartalo.

Boston College scoring: Touchdowns, Johnson, Roarke, Conversion, Zotti.

Bay de Noc Dartball League Opens Monday

Hershey at St. Louis.

Expect Air Circus As Packers Tackle Los Angeles Rams

MILWAUKEE, Wisconsin—The Green Bay Packers make their biggest bid for a spot in the National Football League here Sunday afternoon, facing the National Conference champion Los Angeles Rams at State Fair Park.

Kickoff is set for 1:30. Approximately 27,000 fans are expected to watch the two clubs break a 2-1 knot in the National Conference standings. Also tied with the Packers and Rams are the Chicago Bears and San Francisco Forty Niners who clash in Chicago Sunday and the Detroit Lions who host the New York Yanks.

Coach Gene Ronzani's Packers stunned the pro football world the last two weeks by downing the Pittsburgh Steelers, 35-33, and the Philadelphia Eagles, 37-24. The powerhouse Rams lost to the championship Cleveland Browns, 38-28, and then defeated the strong Detroit Lions, 27-21, in their last two games.

An aerial circus, with the Rams' Bob Waterfield and Norm Van Brocklin and the Packers' Tobin Rote and Bobby Thomson cracking the whip, is in prospect for the crucial battle—the league Packer game here this year. Both teams depend on the forward pass as their No. 1 ground and point gainers.

The Rams, a 13-point favorite, will be without Tom Fears, their No. 1 pass catcher in 1950 who is now running second to Elroy Hirsch this season. Fears injured his leg in the Detroit game last Sunday and was sent back to the West Coast for treatment. Also reportedly out is Tom Keane, Ram defensive back.

There will be a bit of Badger Sunday. Hirsch, who already has caught six touchdown passes, hails from Wausau and a number of fans from there will see the game. Hundreds of fans of Racine are coming up to cheer Howie Ruetz, the rookie Packer who played prep ball in Racine and then saw college action at Loras. Ruetz started the season with the Rams.

Count On Mann
The Packers' big hope Sunday will be Bob Mann, the lightning-fast Negro end, who already has grabbed six touchdown passes out of his eleven receptions. He nailed three for teedees against the Eagles last Sunday. Both Rote and Thomson are expected to handle the Bay pitching.

Up front, the Packers' veteran wall will be battling the highly-touted rookie Ram line. The Los Angeles forwards, though inexperienced, have been giving such precious gems as Waterfield, Van Brocklin, Vitamin Smith and Glenn Davis good protection.

Probable offensive lineups:

Los Angeles Green Bay
Boyd LE Mann
Simensen LT Wildung
Daugherty LG Burris
McLaughlin C Rhodemyre
Lange RG Nichols
Dahms RT Manley
Hirsch RE Wimberly
Waterfield QB Thomson
Davis HB Canadian
Smith HB Grimes
Hoerner FB Cloud

Enroll 262 For Adult Courses

First Classes To Open Monday In Escanaba

Two hundred and sixty-two persons are registered to attend Adult Education courses in Escanaba, with first classes beginning Monday, it is announced by Vernon Ihlenfeldt, director.

There are openings for additional enrollment in all but one subject. The welding class is closed with an enrollment of 37 students.

Requests have been received for courses in radio repair and business English and driver training. Persons desiring those courses are asked to telephone 2123. If enough persons are interested and enrolled classes will be organized and a teacher obtained.

There has been one change in the teaching staff, Ihlenfeldt said. Mrs. Carol Hansen will teach textile painting.

Persons who wish may enroll at class openings at the following times and places next week:

Machine shop, 7 p. m. Monday. Technical school: bridge, beginning and advanced, 7:30 p. m. Monday lunch room. Junior high school: art workshop, 7:30 p. m. Wednesday, room 167. Junior high: writing, 7:30 p. m. Monday, room 254. Junior high: slide rule and mathematics, 7:30 p. m. Tuesday, room 263. Junior high.

Amateur photography, 7:30 Wednesday, room 166. Junior high: sewing, 7:30 Monday, room 159. Junior high: knitting, 7:30 Tuesday, room 159. Junior high: conversational French, 7:30 Tuesday, room 251. Junior high: conversational Swedish, 7:30 Monday, room 253. Junior high: conversational Spanish, room 267. Junior high.

Short-hand review and dictation, 7:30 Monday, room 303. Senior high: bookkeeping, 7:30 Monday, room 311. Senior high: typing, 7:30 Monday, room 301. Senior high.

Woodworking and furniture repair, 7 p. m. Monday. Bonifas Technical school: table arrangement, holiday decoration, 7:30 Monday, kitchen. Junior high: square dancing, room 260. Junior high: bowling, 2:30 Wednesday afternoon. Arcade alleys: volleyball, 7:30 Thursday. Senior high gym; textile painting, 7:30 Monday, room 151. Junior high.

Three Spending Measures Finish Job For Congress

(Continued from Page One)

sine die, or final, adjournment in mid-afternoon.

The Senate meets two hours later (noon), since the House must act first on the leftover appropriation bills.

Veto Overridden

Topping the day's calendar in the House is a vote on the president's veto of a bill to help disabled veterans buy automobiles.

By a 55 to 10 vote, 11 more than the two-thirds necessary to override, the Senate re-passed the bill yesterday. The House was expected to follow suit, making the bill law despite the president's objections.

In his veto message, the President said he would approve legislation limiting the proposed aid to veterans who have lost the use of one or both legs at or above the ankle. But he objected to including veterans who are blind or have lost an arm.

The legislation would require the government to pay up to \$1,600 on the cost of a car for any veteran of World War II or the Korean fighting who has lost a leg or an arm or is blind or has impaired vision as a result of service.

Solons Show Speed

In a burst of speed in sharp contrast to the slow pace of previous months, Congress got rid of a lot of "must" measures yesterday.

It sent to the President bills raising the pay of about 1,600,000 civil service and postal workers by from \$300 to \$800 a year; hiking postal rates an estimated \$117,000,000 annually; boosting most people's income taxes between 11 and 12 per cent starting Nov. 1, and ending the state of war with Germany.

The Senate confirmed nine of the president's nominations for delegates to the United Nations but left on ice another, that of Philip C. Jessup.

All bills not acted on at adjournment time remain on the congressional "pending" list and can be taken up when Congress reconvenes in January.

The Senate planned today to take up several minor bills before turning to the appropriations measures.

When the three money bills are passed, Congress will have appropriated about \$85,000,000,000 for the 1952 fiscal year which began July 1.

This is an all-time record in a non-war year. It is exceeded only by \$147,000,000,000 voted in fiscal 1945 and \$114,000,000,000 in fiscal 1944—in the midst of World War Two.

The U. S. Army says the median age for all enlisted and officer personnel is between 22 and 23.

FORTUNE IN GEMS—Mrs. Charles Black, better known to movie-goers as Shirley Temple, models an Indian, pear-shaped, diamond necklace valued at \$750,000. The exotic jewels, from the collection of Harry Winston, were exhibited in Washington for benefit of Washington Home for Incurables.

Briefly Told

Harold O'Connell, who is serving in the U. S. Navy, is expected to arrive by motor on Monday to spend his convalescent leave at the home of his mother, Mrs. Anne O'Connell, 1303 First Avenue North.

Tavern Broken Into—The Silver Front Tavern, Stephenson avenue, was broken into and entered last night but only a few pennies were taken from the cash register. Entry was made by breaking a window on the north side of the building.

Lions—The Escanaba Lions club will hear Carl Johnson talk "Social Security" at the regular meeting, 6:45 on Monday evening in the Sherman hotel. Johnson will speak with special emphasis on new legislation enacted by the last Congress.

Stickers On Windows—Persons who have contributed to the Delta County Community Chest are asked to display the Red Feather stickers on their front windows. Exhibition of the stickers will reduce the number of home calls the Community Chest workers will have to make, it was explained.

Negro Singer Says Swanky Stork Club Ignored Her Party

NEW YORK—(AP)—A top official of the National Association for the Advancement of Colored People has asked that the swank Stork Club be investigated by police and liquor authorities.

The action last night followed Negro singer Josephine Baker's complaint that she and her party were ignored by waiters at the fashionable cafe last Tuesday.

Walter White, executive secretary of the association, said he asked the investigation in telegrams to the New York State liquor authority and to New York City's police commissioner, George P. Monaghan.

Ten Children Get \$100 Auto For \$2

KALAMAZOO, Mich.—(AP)—His ten children got Aaron T. Howe a \$100 car for \$2.

Howe, a papermill worker, took advantage of a used car dealer's offer to knock off \$10 for each child of a purchaser.

He spotted a somewhat ancient but still running car with a price tag of \$100. When the deal was closed, he showed the birth certificates of his ten children.

The dealer, standing by his offer, gave Howe the car for \$2—one for the transfer of title and one for use of the license plate for the remainder of the year.

Gen. Clark Appointed Vatican Ambassador By President Truman

WASHINGTON—(AP)—President Truman today nominated General Mark W. Clark to be the first United States ambassador to Vatican City.

The president's action, if approved, means the United States will have a full ranking ambassador at the Vatican for the first time in history.

Myron C. Taylor, New York financier, was a special representative of the president to the Vatican for several years, but resigned some time ago. He did not have regular ambassadorial status.

Since Taylor stepped out various Protestant church organizations have urged the president not to reappoint a special representative.

Morticians Picket

GLASGOW, Scotland—(AP)—Striking morticians picketed a funeral parlor last night to make certain no one tried to sneak a coffin out of the place. The strike was called to protest the dismissal of a fellow mortician.

In Michigan State's football squad 49 out of 72 men are from Michigan.

Income Levies Going Up Nov. 1 In New Tax Bill

(Continued from Page One)

total income to about \$64,700,000,000 for the 1952 fiscal year which ends next June 30.

That total, however, may be three to eight billion dollars below the outgo for the period.

The bill provides little more than half the \$10,000,000,000 additional revenue the President asked for this year. The \$5,691,000,000 total of the compromise bill compares with a \$7,200,000,000 increase voted by the House originally. This was pruned down to \$5,400,000,000 in the Senate.

The new measure and two other tax bills passed since the outbreak of the Korean war have added nearly \$16,000,000,000 to the American tax load.

Republicans Dissatisfied

A tax increase, varying only in a few minor particulars from the one finally approved was rejected by the House Tuesday, 204 to 157.

On the final, decisive roll call yesterday, 147 Democrats, 37 Republicans and one Independent supported the bill, thirty-four Democrats and 126 Republicans voted against it. Some northern Democrats who had opposed the legislation as putting too heavy a burden on low income groups were persuaded to reverse their votes. In general, the Republicans who opposed the first compromise Tuesday were still against the bill. They argued the administration should move to reduce government spending before insisting on additional tax money.

For the majority of Americans, the bill means an increase of slightly less than 1 1/2 per cent in their income tax obligations. Since the bill will be in effect for only the last two months of 1951, this year's tax bills will be about 2 per cent larger than those last year. The full effect will be felt in 1952.

Taxpayers in the higher income brackets have an option of continuing to pay taxes at present rates, and adding on an extra payment amounting to 9 per cent of the income remaining after payment of the tax. This alternate method benefits single persons with incomes \$28,800 or more a year, and married couples above \$57,600.

Liquor Takes Rap

Here are some of the principal excise boosts:

Whisky, gin, brandy and other hard liquor from \$9 a 100-proof gallon to \$10.50. Beer from \$8 to \$9 a barrel. Wine up an average of 12 1/2 per cent.

Cigarettes up from 7 cents a pack to 8 cents. Gasoline from 1 1/2 to 2 cents a gallon.

Automobiles increased from 7 to 10 per cent of manufacturers' price. Trucks and buses, from 5 to 8 per cent.

Electric dishwashers, electric garbage disposal units, power lawnmowers and other items of household equipment put under a 10 per cent manufacturers' tax.

Fountain pens, mechanical pencils, cigarette lighters will be taxed 15 per cent of the manufacturers' price.

There will be a new 10 per cent tax on the gross receipts of bookmakers and lottery operators, including persons engaged in the numbers racket. This one promises to be an enforcement headache for the Internal Revenue Bureau.

Baby Powder Exempt

In a few cases, excise taxes were cut or abolished. The tax on telegrams goes down from 25 to 15 per cent of the charge. Smoking and chewing tobacco will be taxed 10 cents a pound instead of 18.

Baby oils and powders come out from the 20 per cent retail tax. Homeowners who sell their dwellings will not be taxed on any profit they may receive, provided they reinvest the gain in a new personal residence within a year of the date of sale. This provision is retroactive to last Jan. 1.

The bill provides two principal increases for corporations. The regular tax rate will go up from 25 to 30 per cent on income under \$25,000, and from 47 to 52 per cent on all over that amount. This proviso takes effect as of April 1, 1951. A second burden is an increase in the percentage of corporate income subject to the excess profits tax. After July 1, 1951, all income in excess of 83 per cent of a company's average profits for the best three of the four years 1946 through 1949 will be taxed as excess profits. The present provision taxes all over 85 per cent.

Other features of the bill include an increase in the maximum rate of the capital gains tax from 25 to 26 per cent; applying corporation tax rates to farm cooperatives, mutual savings banks and building and loan associations; and extension of tax relief to fighting men in combat zones.

One controversial, non-revenue feature remains in the bill. This forbids the federal government from denying social security aid to states, such as Indiana, which throw open their relief rolls for public inspection.

POTTER VOTES NO

WASHINGTON—(AP)—Four Michigan Democrats and two Republicans were with the majority yesterday when the House voted 184 to 160 to approve a \$5,700,000,000 tax bill and send it to

Lowly Angletworm Great Help To Sport Fishing

That lowly angletworm dug out of the backyard or nearby field may be dangling from more fishermen's hooks.

Michigan's fishing army continues to expand but, paradoxically, those who supply the bait minnows are dwindling in number. Close to a million licenses or nearly four per cent more have been issued by the conservation department. However total retail and wholesale minnow dealer

permits are down about 16 per cent over last year at this time. Retail dealers total 1,417, wholesalers, 133.

Part of the decline actually is a leveling off in the large number of persons who quickly got into the business shortly after the war, says Fred Westerman, state fisheries chief.

Relatively few bait dispensers are raising their own minnows. Most of them seine from lakes and streams or buy from wholesalers who do the same thing. There is a shortage in many waters resulting from extensive seining of chubs, shiners and other minnow stock.

Prices reflect the bait situation. Minnows cost about 50 cents a dozen and at certain times of the year run as high as \$1.00 a dozen. Large pike minnows used as decoys for winter spearing, have cost as much as 75 cents apiece.

Why are not more dealers raising their own bait? Some technical training in minnow propagation is a requirement for success and few have it. Not many ponds and other likely waters are readily available for raising minnows without dredging and other work. The investment to get started seems too large for the immediate returns from the business, discouraging others.

Worms are handled as a worthwhile sideline by a few dealers. But for the most part, the lowly worm—publicly disdained but secretly regarded as the closest thing to fish insurance by many—gets little credit for its contribution to fishing.

Iron River Realtor To Head Peninsula Development Bureau

IRON RIVER, Mich.—(AP)—Howard H. Billings, Iron River realtor, was elected president of the Upper Peninsula Development Bureau at the 41st annual business meeting of the Bureau here yesterday.

Billings succeeds C. J. Crooker of Ontonagon. Other officers elected are Robert Sayles of Newberry, first vice president; Ben Grobowski of L'Anse, second vice president; A. J. Jacobson of Marquette, treasurer, and George E. Bishop of Marquette, secretary-manager. Bishop is beginning his 27th consecutive year as secretary-manager.

The 42nd annual meeting of the Bureau was awarded to Newberry. Ironwood extended an invitation for 1953.

Gladstone Boy Shot In Knee

James Leach, 17, Is Accidentally Hurt

GLADSTONE—James Leach, 17, of 1013 Delta avenue, Gladstone, was accidentally shot in the left leg by Harold Willette, 22, of Suamico, Wis., on the Gladstone bluff at 10:30 this morning.

Accompanied by Stanley Johnson, also of Gladstone, Leach and Willette drove to the bluff to do some shooting at rats at the city dumping grounds.

After getting out of the car, they began to load two guns they had in their possession. One of the guns, a .22 caliber semi-automatic rifle, accidentally discharged and hit Leach, who was about twenty feet away. The bullet entered the rear of his left knee.

He was taken to Gladstone for medical attention.

About ten years ago, the Leach boy was struck in the ankle by a bullet discharged from a shell which he was pounding on a rock.

Truman And Taft Choice Of Editors

CHICAGO—(AP)—President Truman and Senator Taft (R-Ohio) have been named in a poll of newspaper editors as the "best qualified" in their respective parties for the presidency.

The poll was conducted by the National Editorial Association with 319 editors of small daily and weekly newspapers participating.

In the vote for best qualified Democrat, Mr. Truman received 64 ballots, with Senator Douglas (D-Ill.) second with 63. General Eisenhower got 19.

Taft polled 128 votes to lead the Republicans. In second place was Gen. Eisenhower with 87.

Burglars Imbibe

DETROIT—(AP)—Beer-drinking thieves ransacked the Day Drug Co. of \$2,100 in cash, \$1,400 in checks and an undetermined amount of liquor and narcotics Friday. They left 12 empty beer bottles behind.

Burglars were seen by a graduate of the University of Michigan, he was one of the founders of the Michigan Outdoor Writers association.

SAULT STE. MARIE, Mich.—(AP)—Clarence A. Paquin was named secretary of Sault Ste. Marie's Chamber of Commerce today, succeeding Maurice E. Hunt.

Hunt was appointed by Gov. Williams a week ago to the State Public Service commission.

Paquin, who served for 19 years as chief of the education division of the Department of Conservation in Lansing, came here a few years ago to enter business with his brother.
